In chapter 4 (Page 41) in the (Special) Manual  
 You will find a few tips about important settings for your Automower®.  
 All settings for Automower® are made using the remote functions.

## ADJUST THE MOWER TO SUIT THE SIZE OF YOUR GARDEN

The mowing results depend on mowing time. Before the mowing starts in your garden using the Zone function, if the mower reaches the condition, the time will appear truncated down.  
 If the mower reaches the address, the time will not be properly cut.

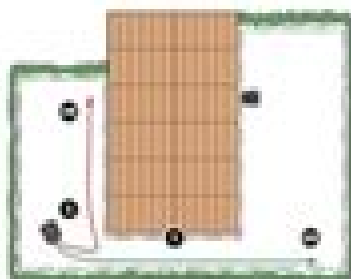

## TIME

The time when the mowing starts will be the same as the time when the mower starts. The time when the mower starts will be the same as the time when the mower starts. The time when the mower starts will be the same as the time when the mower starts.

## ADJUST THE MOWER FOR NARROW PASSAGES

Narrow passages in the garden make it difficult for the mower to find the charging station. You can set if the mower starts or not when using the Start/Stop function.

1. Look for the narrow passage in the garden between the charging station.
2. Place the mower beyond the passage, with an arrow to the Start/Stop function.
3. Activate the Start/Stop function. After the Start/Stop, the mower starts.
4. Ensure that the mower follows the boundary line through the passage.
  - a. If the mower reaches through the passage, the mower completes.
  - b. If the mower does not travel through, lower the value of the boundary width, (boundary for 1 cm). Repeat the test from point 1.
