- Inspect vapor hose, fuel filter cap and fuel tank
- Replace engine air filter (if required)
- Test engine coolant
- Inspect automatic trans axle fluids
- Inspect brake pads and rotors
- Inspect rear brake drums, linings and parking brake
- Inspect transmission & power steering fluids

A LA CARTE SERVICE

4 Wheel Brake Service

Exposure to environmental elements may result in rust build-up, which can cause brake pulsation and/or abnormal wear. Regular lubrication and cleaning of the brake components will help ensure proper function as well as reduce premature wear on the braking system.

Recommend every 12,000 km or 12 months

Brake Fluid Service

This procedure includes removing the contaminated fluid and moisture out of the system and flushing it with fresh fluid. A brake fluid ensures proper brake system performance and increases the lifespan of your brake system components.

Recommend every 24,000 km

Coolant Service

This procedure includes pretesting the cooling system with an advanced cleaner to help remove rust, scale and acid deposits. We then remove the existing fluid using an exchange machine and replenish with new Hyundai coolant.

Recommend every 96,000 km or 48 months

IDI Injector Service

This unique cleaner is designed to remove carbon and other deposits in the fuel injection system. The blend of solvents and cleaners is specifically designed to address "hard-to-fix" problem areas that are common in today's direct-injection (IDI) system. Removing carbon from the intake valves and combustion chambers can help eliminate cold-start issues, hesitation and other drivability problems.

Recommend every 6,000 km

Transmission Service

This procedure includes adding a treatment to the transmission system to help clean out grime and varnish. We then remove the existing fluid using an exchange machine and replenish with new Hyundai transmission fluid.

Recommend every 96,000 km

FACTORY RECOMMENDED
