addresses of P L Kapitza the author remarks on the insight of the 18th century Ukrainian philosopher Skovoroda who wrote
We must be grateful to God that He created the world in such a way that everything simple is true and everything compli-
cated is untrue At another place Kapitza meditates on the roles played by instinct imagination audacity experiment and hard
work in the develop ment of science and for a moment seems to despair at understanding the dogged arguments of great

Tucker,2009-04-24 Every schoolchild in America knows that Benjamin Franklin flew a kite during a thunderstorm in the
summer of 1752 Electricity from the clouds above traveled down the kite s twine and threw a spark from a key that Franklin
had attached to the string He thereby proved that lightning and electricity were one What many of us do not realize is that
Franklin used this breakthrough in his day s intensely competitive field of electrical science to embarrass his French and
English rivals His kite experiment was an international event and the Franklin that it presented to the world a homespun
rural philosopher scientist performing an immensely important and dangerous experiment with a child s toy became the
Franklin of myth In fact this sly presentation on Franklin s part so charmed the French that he became an irresistible
celebrity when he traveled there during the American Revolution The crowds and the journalists and the ladies cajoled the
French powers into joining us in our fight against the British What no one has successfully proven until now and what few
have suggested is that Franklin never flew the kite at all Benjamin Franklin was an enthusiastic hoaxer And with the electric

kite he performed his greatest hoax As Tucker shows it was this trick that may have won the American Revolution
