Becoming a family leader is fast and easy it requires starting an organized group with a consensual commitment under the same roof either with a biological parenting relation or without one
Furthermore the modern anthropologist theory 2019 sees the new family as a group of human beings with kinship ties that organize themselves in order to manage their economic resources together and achieve their daily basic needs
However becoming a successful leader of such a family group is a challenge depending on how well we understand what the administration of human beings means and how it works
This book is a scientific investigation of what families need to be successful as an organized group
It explains how applying the scientific theories of organizational psychology and administrative and scientific management to one's family can increase its functionality and productivity both inside and outside of the household
