Victor Segalen and the Aesthetics of Diversity Charles Forsdick,2000-11-09 From his premature death in 1919 until the final decades of the twentieth century the French traveller author and naval doctor Victor Segalen remained relatively obscure his extensive work on exoticism largely unavailable With the appearance of the Complete Works in 1995 the dramatic scope and wide ranging implications of his reflections on diversity were at last fully apparent Segalen s understanding of the exotic is radically different from that of his colonial contemporaries His exoticism or Aesthetics of Diversity focuses on the instability of contact between different cultures and represents a unique response to the decline of diversity triggered by colonialism and Westernization Recent attention to Segalen in a variety of fields post modern sociology post colonialism literary criticism anthropology indicates his role as a precursory theorist of the exotic whose work is of increasing contemporary relevance At a moment when exoticism is rapidly emerging as a term of critical currency this study of the genesis of Segalen s aesthetics is a timely contribution to work in this area
