As Dr Needham s immense undertaking gathers momentum it has been found necessary to subdivide volumes into parts each to be bound and published separately The first part of Volume 4 already published deals with the physical sciences the second with the diverse applications of physics in the many branches of mechanical engineering and the third will deal with civil and hydraulic engineering and nautical technology With this part of Volume 4 then we come to the application by the Chinese of physical principles in the control of forces and in the use of power we cross the frontier separating tools from the machine We have already noticed that the ancient Chinese concept of chhi somewhat similar to the pneuma of the Greeks asserted itself prominently in acoustics but we discover here that the Chinese tendency to think pneumatically was also responsible for a whole range of brilliant technological achievements for example the double acting piston bellows the rotary winnowing fan and the water powered metallurgical blowing machine ancestor of the steam engine as well as for some extraordinary insights and predictions in aeronautics **Empires of light** Niharika Dinkar,2019-09-19 Light was central to the visual politics and imaginative geographies of empire even beyond its role as a symbol of knowledge and progress in post Enlightenment narratives This book describes how imperial mappings of geographical space in terms of cities of light and hearts of darkness coincided with the industrialisation of light in homes streets theatres and its instrumentalisation through new representative forms photography film magic lanterns theatrical lighting Cataloguing the imperial vision in its engagement with colonial India the book evaluates responses by the celebrated Indian painter Ravi Varma 1848 1906 to reveal the centrality of light in technologies of vision not merely as an ideological effect but as a material presence that produces spaces and inscribes bodies *Legends of Gronk* Bobbi Kerr,2022-09-20 The line between hero and coward is thinner than you think Three thousand years before Blood Magic Gronk became a legend but which version is true Some say he was a mighty goblin warrior who never lost a battle feared by his enemies and revered by his kin Others tell a different tale one of a coward who fled the fight leaving his kinsmen to die In *Legends of Gronk* a standalone Realm Wardens novella discover how history shapes heroes and how some legends can be both truth and fiction *Shadow Child* Bobbi Kerr,2023-07-25 The Shadow holds the key to magic s fate and Pac s own Pac set out with a simple mission find Parin Tor s son and honor his mother s heroism Then she would continue her journey to the Dragon Clan Lands where Enya Dufin and Jardeth awaited the only family she had ever truly known But peace was not hers to claim Ambushed Captured Questioned by strangers who didn t belong Pac soon found herself entangled in a promise she might not be able to keep a promise that

could change the fate of Totriga itself Something is unraveling the very fabric of magic Something hidden in the shadows Can Pac uncover the truth before it s too late Will she ever find her way back to those she loves Or will the shadows claim her as their own Shadow Child is the gripping sixth book in Realm Wardens a tale of courage resilience and the mysteries that lie just beyond the veil
