ministers and preachers He attended Harvard at the tender age of 14 where he studied to fulfill his destiny and become a minister Emerson eventually dropped out of this line of work embarking on a career as a public speaker and serving as the intellectual center of a group called the Transcendentalist Club This book contains some of Emerson's best known essays specifically Self Reliance as well as his address to the Harvard Divinity School Emerson's philosophy although sometimes painfully explicated upon in his own writings is best summed up by the word individualism To Emerson it is the individual that should be the fulcrum point in all aspects of life Emerson then took this philosophy and applied it to a myriad of subjects Self Reliance Emerson's masterwork attempts to explain how man should retain his individualism in the face of society It is society that stifles the individual and the trick is to be true to yourself and your conscience Law should not be and is not above the individual Again conscience should rule the day Every man must follow his conscience even if doing so endangers his role in society This tension between the individual and society Emerson enumerates continues to reverberate to this day In his address to the Harvard Divinity School which got Emerson banned from the school for years he addresses individualism in the context of religion Emerson himself a trained minister who eventually resigned his pulpit urges those about to embark on a career in the clergy to reach inside themselves when preaching Don't rely on the same old tired formulas everyone else relies on Emerson says but see what the holy word means to you and then express what you find to your flock in your own way Several other essays round out the collection all of them utilizing Emerson's keen sense of the power of the individual That Emerson is still in print today while some of his contemporaries are not is proof enough of the power and influence of his thought Whether you agree with his arguments or not there is no denying that he has been enormously influential to American thinkers of his time and those who have followed

W. Emerson, 2018-03-16 In Nature Emerson lays out and attempts to solve an abstract problem that humans do not fully accept nature's beauty He writes that people are distracted by the demands of the world whereas nature gives but humans fail to reciprocate The essay consists of eight sections Nature Commodity Beauty Language Discipline Idealism Spirit and Prospects Each section takes a different perspective on the relationship between humans and nature In the essay Emerson explains that to experience the wholeness with nature for which we are naturally suited we must be separate from the flaws and distractions imposed on us by society Emerson believed that solitude is the single mechanism through which we can be fully engaged in the world of nature writing To go into solitude a man needs to retire as much from his chamber as from society I am not solitary whilst I read and write though nobody is with me But if a man would be alone let him look at the stars When a person experiences true solitude in nature it takes him away Society he says destroys wholeness whereas Nature in its ministry to man is not only the material but is also the process and the result All the parts incessantly work into each other's
