How to Preach the Prophets for All Their Worth Andrew G. M. Hamilton, 2022-05-24 The Old Testament prophetic books play a key role in revealing God's plan of salvation They occupy a significant portion of the biblical canon similar in size to the entire New Testament Yet most believers stay clear of this part of Scripture They avoid traveling through this forest of oracles and visions Many preachers also struggle to navigate this unfamiliar territory Preachers feel much more at ease unpacking the intricate arguments of the Pauline epistles or following the thrilling adventures of biblical narratives rather than exploring the prophetic books The church however needs to hear and respond to the beauty depth and relevance of the prophetic message This book not only provides convincing reasons for preaching the prophets today but also offers concrete guidelines to empower preachers small group leaders youth workers etc to communicate the message of the prophets with hermeneutical precision theological depth genre sensitivity and pastoral pulse This book motivates and equips preachers to travel with confidence through this uncharted territory and to help God's people enjoy the scenery of this part of God's word

Children, Young People and the Press in a Transitioning Society Faith Gordon, 2018-03-10 This book assesses the implications of how children and young people are represented in print media in Northern Ireland a post conflict transitioning society Gordon analyses how children and young people's perceived involvement in anti social and criminal behaviour is constructed and amplified in media as well as in popular and political discourses Drawing on deviancy amplification folk devils and moral panics this original study specifically addresses the labelling perspective and confirms that young people are convenient scapegoats where their negative reputation diverts

attention from the structural and institutional issues that are inevitable in a post conflict society. Alongside content analysis from six months of print media and a case study on the representation of youth involvement in sectarian rioting this book also analyses interviews with editors, journalists, politicians, policy makers and a spokesperson for the Police Service of Northern Ireland. Noting the importance of prioritising the experiences of children, young people and their advocates, this timely and engaging research will be of specific interest to scholars and students of criminal justice, criminology, socio legal studies, sociology, social policy, media studies, politics and law as well as media professionals and policy makers.
