aimed at People who wish learn the software but are unable to attend a training course and find the software reference manual hard going Project management companies who wish to run their own software training courses or provide their employees with an alternative text to the vendor supplied user manual Training organizations requiring a training manual to run their own training courses This book is a PMI Approved course and instructors PowerPoint slide shows are available to training organizations PMI REPs may apply to have this course licensed to them and award 21 PDUs to each attendee Primavera Systems Inc originally asked the author to write this book and this publication is ideal for people who would like to gain an understanding of how the software operates up to an intermediate level It only covers the Primavera Versions 8 2 Web tool It explains some of the differences from the Professional tool SureTrak P3 Microsoft Project and Asta Powerproject to assist people converting from other products The book is designed to teach planners and schedulers in any industry how to setup and use the software in a project environment It explains in plain English and in a logical sequence the steps required to create and maintain an unresourced and resourced schedule It tackles some of the more complex aspects of the software that the user manual does not address It highlights the sources of information and the methods that should be employed to produce a realistic and useful project schedule The book provides advice on how on how the many software options may be applied to projects environments and it aims to teach readers how to plan and control projects created within the software package and stays focused on explaining how to use Primavera to schedule projects by Concentrating on the core functions required to set up an enterprise environment and how to plan and control projects Providing command lists at the start of each chapter as a quick reference Providing a comprehensive table of contents and index of all topics The book is intended to be used As a self teach book or A user guide or A training manual for a two day training course This book is written by an experienced scheduler who has used the software at the sharp end of projects and is not a techo It draws on the author s practical experience in using the software in a wide variety of industries It presents workable solutions to real day to day planning and scheduling problems and contains practical advice on how to set up the software and import data About the Author Paul Harris holds an Honours Degree in Civil Engineering obtained in the UK and is a Certified Cost Engineer through AACEI International a PRINCE2 Registered Practitioner an Approved PRINCE2 Trainer and a Managing Successful Programmes Registered Practitioner He has worked in the project controls industry for a number of years and has assisted many companies in a range of industries to set up and run project controls systems His Melbourne Australia based company Eastwood Harris Pty Ltd offers project controls consulting and training services worldwide with a strong focus on Microsoft Project and Primavera software

Project Planning and Control Using Oracle Primavera P6 Version 8. 3 EPPM Web Paul E. Harris, 2014-06-14 A user guide reference book and two day training course written for Project Management Professionals who wish to learn how to plan and control both an unresourced and resourced project in an established Oracle Primavera environment This book is an update of the author s unpublished book titled Planning and Control Using Primavera P6 1 Web

and includes the new features of Oracle Primavera P6 Version 8.2 Web. The book is packed with screen shots, constructive tips and contains workshops with solutions at the end of each chapter for the reader to practice the skills taught. It has been written so it may be used with the EPPM Web tool. The book is aimed at people who wish to learn the software but are unable to attend a training course and find the software reference manual hard going. Project management companies who wish to run their own software training courses or provide their employees with an alternative text to the vendor-supplied user manual. Training organizations requiring a training manual to run their own training courses. This book is a PMI Approved course and instructors' PowerPoint slide shows are available to training organizations. PMI REPs may apply to have this course licensed to them and award 21 PDUs to each attendee. Primavera Systems Inc. originally asked the author to write this book and this publication is ideal for people who would like to gain an understanding of how the software operates up to an intermediate level. It only covers the Primavera Versions 8.2 Web tool. It explains some of the differences from the Professional tool, SureTrak P3, Microsoft Project and Asta Powerproject to assist people converting from other products. The book is designed to teach planners and schedulers in any industry how to set up and use the software in a project environment. It explains in plain English and in a logical sequence the steps required to create and maintain an unresourced and resourced schedule. It tackles some of the more complex aspects of the software that the user manual does not address. It highlights the sources of information and the methods that should be employed to produce a realistic and useful project schedule. The book provides advice on how the many software options may be applied to projects, environments and it aims to teach readers how to plan and control projects created within the software package and stays focused on explaining how to use Primavera to schedule projects by concentrating on the core functions required to set up an enterprise environment and how to plan and control projects. Providing command lists at the start of each chapter as a quick reference. Providing a comprehensive table of contents and index of all topics. The book is intended to be used as a self-teach book or a user guide or a training manual for a two-day training course. This book is written by an experienced scheduler who has used the software at the sharp end of projects and is not a techno. It draws on the author's practical experience in using the software in a wide variety of industries. It presents workable solutions to real day-to-day planning and scheduling problems and contains practical advice on how to set up the software and import data. About the Author: Paul Harris holds an Honours Degree in Civil Engineering obtained in the UK and is a Certified Cost Engineer through AACEI International, a PRINCE2 Registered Practitioner, an Approved PRINCE2 Trainer and a Managing Successful Programmes Registered Practitioner. He has worked in the project controls industry for a number of years and has assisted many companies in a range of industries to set up and run project controls systems. His Melbourne, Australia-based company, Eastwood Harris Pty Ltd, offers project controls consulting and training services worldwide with a strong focus on Microsoft Project and Primavera software.

Project Management Tools and Techniques

Deborah Sater Carstens, Gary L. Richardson, 2019-11-04

The topic of project management is truly an evolution of

art seeking science This activity involves balancing project objectives against the constraints of time budget and quality Achieving this balance requires skill experience along with the use of many tools and techniques which are the focus of this book This new edition provides updated content to incorporate examples from Microsoft Project 2016 and material from the Project Management Body of Knowledge PMBOK Guide sixth edition The chapter structure includes step by step instructions regarding the basic mechanics and various software tools that can be used to assist in the processes To reinforce the textbook s learning objectives extra material is provided on the textbook website This includes mechanical tool examples and lab assignments representative of the chapter topics An external video tutorial library is available to help with various mechanics related to Microsoft Project mechanics An instructor manual is available for qualifying adoptions for classroom use Features Illustrates the use of Microsoft Project throughout the project life cycle Offers templates as productivity enhancement tools Includes supplemental material for students and instructors Provides assignments for hands on experience Follows the PMI PMBOK Guide model structure that will support a better understanding of the model and help prepare students for PMP and CAPM certification Illustrates both traditional and contemporary management techniques
