Balancing the Common Core Curriculum in Middle School Education
James H. Bunn,2017-01-09 This book examines the idea of good education which is thought to include a scientific and

technical component a mathematical component a writing component and an ethical and aesthetic component Bunn proposes a new three way intersection in these teachings the basic sciences and mechanics of leveraging on a seesaw the basic formulations of patterning an algebraic equation and the basic rules for writing a sentence in English In all three forms of inquiry balance is the mainstay through which problems in US middle school education are brought together and analyzed
