**Fables from the Nouvelles Poésies** John Metz, 1986 The Fables of La Fontaine enjoyed universal success from their first appearance in 1668 Fifty years later a collection of songs was published in Paris based on some of these tales set to vaudeville tunes and other simple airs For this new edition of these unknown settings the author has written an extensive historical introduction translated all the texts into English and provided invaluable suggestions on performance practice A delightful and witty addition to the concert repertory

**Iambic Ideas** Alberto Cavarzere, Antonio Aloni, Alessandro Barchiesi, 2001 With its judicious sampling of topics each developed in impressive detail Iambic Ideas itself rates as a perfectly brilliant idea The book provides a much needed sense of iambic as a self standing generic enterprise within the literatures of Greece and Rome poetry that both writes and plays by its own rules The book is thus a first of its kind and fundamental to the study of verse invective in antiquity Kirk Freudenburg Ohio State University The collection is strong and provocative in both its breadth and its depth Iambic Ideas is nicely produced organized and balanced Bryn Mawr Classical Review Iambic Ideas offers a rich selection of essays from a range of international experts Each contribution is of considerable value on its own merits and the collection as a whole reveals both the coherence and the diversity of the genre Greek and Rome Oxford Academic Journals The collection as a whole is useful and important Journal Of Roman Studies Iambic Ideas is a must read for anyone interested in Greek and Roman poetry These twelve thought provoking essays are constructed to move beyond formal generic classifications and to focus on the broader continuities interactions and significance of the iambic impulse from the archaic to late antique The temporal span of these essays enables the readers to gain access to material that might otherwise be unfamiliar and allows for a far richer understanding of poetic processes in play Susan Stephens Stanford University

against being generous to treacherous types But what unites all of them is the artfulness of their tellingthe poetry It is this quality that Pearl Hochstadt has aimed to capture in verses that approximate both the rhyme schemes and the often irregular meters of the original text
