Faces Of Talent:

Faces of Talent Till Brönner, 2014 In true Blue Note tradition the cover of Till Brönner's self titled 2012 album is in itself a work of art The musician who had played with Natalie Cole and Dave Brubeck before he became a celebrity himself enjoys being photographed by star photographer Andreas H Bitesnich resulting in portraits that are cool but without a hint of artificiality Brönner is not only one of the best and most successful jazz trumpet players of our time but he also has a special relationship with the visual arts Since the moment he received his first Leica camera he discovered a love of photography and is turning the tables He captures internationally famous musicians and actors from Beth Ditto to Armin Muller Stahl David Guetta to Gregory Porter Because of his musical background Brönner has the necessary feeling for timing and the right orchestration His photographic style is spare and no method is an end in itself The result impressive black and white portraits that reveal unknown sides of familiar faces When viewing these images you can immediately sense that there is a special relationship between the photographer and his subjects making these photos exceptionally compelling **SELLING POINTS** This successful jazz musician shows us another exciting facet of his artistic talent Till Brönner's photographs will be honoured in an exhibition at the September 2014 Photokina Fair in Cologne Germany An illustrated book that will enrapture music fans and photography lovers alike 120 duotone photographs *Heads, Faces, Types, Races* Victor Gabriel

McLaughlin,1923 *Heatwave* John L Williams,2025-05-08 Grippingly captures the three months that shook Britain s cultural landscape PAULINE BLACK Scorching seething and scintillating *Heatwave* conjures a slow burning collage of a country on the brink I lived through those cruel months and Williams recreates them with intense skill SIMON GARFIELD An absolute joy PETE PAPHIDES Engrossing powerful goes way beyond nostalgia DAVID KYNASTON With temperatures soaring to 35oC severe water shortages and a sunburned population queuing at the standpipes the summer of 1976 was always remembered as Britain s hottest But the wave that hit the UK that year was also cultural and political with upheaval on the streets in parliament on the cricket pitch and on the radios and TV sets of a nation at a crossroads Before this blistering summer Britain seemed stuck in the post war era a country where people were all in it together as long as you were white male and straight In July Tom Robinson writes a song called Glad to be Gay and by August bank holiday Black youth are making the police run for their lives in the almighty riot at the Notting Hill Carnival But with the Labour Prime Minister Harold Wilson suddenly quitting the pound sinking and the economy tanking a restless immigrant population and increasing dissatisfaction in the old world order the weather seemed to boil up the country to the point where the lid blows off Weaving a rich tapestry of the news stories of the year with social commentary and dozens of first person interviews with those that were there at the time Williams s reappraisal of the summer of 76 is an evocative sometimes nostalgic but always an unflinching read *Heatwave* takes us back to relive the

events of that summer and asks have we really moved on as much as we would have liked Reinventing the Latino Television Viewer Christopher Chávez, 2015-10-30 Reinventing the Latino Television Viewer Language Ideology and Practice examines how the relationship between language power and industry practice is reshaping the very concept of Hispanic television Chávez argues that as established mainstream networks enter the Hispanic television space they are redefining the Latino audience in ways that more closely resemble the mainstream population leading to auspicious forms of erasure that challenge the legitimacy of Spanish altogether This book presents the integration of English into the Hispanic television space not as an entirely new phenomenon but rather as an extension of two ongoing practices within the television industry the exploitation of consumer markets and the suppression of Latino forms of speech *Creating the Viewer* Justin Wyatt, 2024-04-23 A study of the largely hidden world of primary media market research and the different methods used to understand how the viewer is pictured in the industry The first book on the intersection between market research and media Creating the Viewer takes a critical look at media companies studies of television viewers the assumptions behind these studies and the images of the viewer that are constructed through them Justin Wyatt examines various types of market research including talent testing pilot testing series maintenance brand studies and new show ideation providing examples from a range of programming including news sitcoms reality shows and dramas He looks at brand studies for networks such as E and examines how the brands of individuals such as showrunner Ryan Murphy can be tested Both an analytical and practical work the book includes sample questionnaires and paths for study moderators and research analysts to follow Drawn from over fifteen years of experience in research departments at various media companies Creating the Viewer looks toward the future of media viewership discussing how the concept of the viewer has changed in the age of streaming how services such as Netflix view market research and how viewers themselves can shift the industry through their media choices behaviors and activities **Building Organizational Capabilities** Amit Das, This book contains both theoretical and practical insights providing a balanced perspective of what it takes for an organization to build its capability in all aspects to survive and succeed Author's definition of building an outstanding organization is more subjective he believes when the great numbers of people feel or perceive that organization is really contributing for employees it doesn't require to raise volume it's in the air For organizations that desire to be outstanding it's more important to focus upon the capability development to make organization more outcome consistent striving for excellence This book emphasizes holistic views of capability building of organization through building learning culture knowledge management distinctive diversity inclusion equality management performance management employee engagement motivation change management leadership development strategic thinking innovation management and talent management *Broadcast Announcing Worktext* Alan R.
