Sofia Pinto, 2010-11-18 Knowledge Management and Knowledge Engineering is a fascinating field of research these days In the beginning of EKAW the modeling and acquisition of knowledge was the privilege of or rather a burden for a few knowledge engineers familiar with knowledge engineering paradigms and knowledge representation formalisms While the aim has always been to model knowledge declaratively and allow for reusability the knowledge models produced in these early days were typically used in single and very specific applications and rarely changed Moreover these models were typically rather complex and they could be understood only by a few expert knowledge engineers This situation has changed radically in the last few years as clearly indicated by the following trends The creation of even formal knowledge is now becoming more and more collaborative Collaborative ontology engineering tools and social software platforms show the potential to leverage the wisdom of the crowds or at least of the many to lead to broader consensus and thus produce shared models which qualify better for reuse A trend can also be observed towards developing and publishing small but 2 3 4 high impact vocabularies e.g FOAF DublinCore GoodRelations rather than complex and large knowledge models **Database and Expert Systems Applications** A Min Tjoa, Isidro Ramos, 2012-12-06 The Database and Expert Systems Application DEXA conferences are mainly oriented to establish a state of the art forum on Database and Expert System applications But Practice without Theory has no sense as Leonardo said five centuries ago In this Conference we try a compromise between these two complementary aspects A total of 5 sessions are application oriented ranging from classical applications to more unusual ones in Software Engineering Recent research aspects in Databases such as activity deductivity and or Object Orientation are also present in DEXA 92 as well as the implication of the new data models such as OO Model Deductive Model etc included in the Modelling sessions Other areas of interest such as Hyper Text and Multimedia application together with the classical field of Information Retrieval are also considered Finally Implementation Aspects are reflected in very concrete fields A total of of nearly 200 papers submitted from all over the world were sent to DEXA 92 Only 90 could be accepted A Poster session has also been established DEXA 90 was held in Vienna Austria DEXA 91 in Berlin Germany and DEXA 92 will take place in Valencia Spain where we are celebrating the discovery of the New World just five centuries ago in Leonardo's age Both the quality of the Conference and the compromise between Practice and Theory are due to the credit of all the DEXA 92 authors **A Handbook for Teaching and Learning in Higher Education** Heather Fry, Steve Ketteridge, Stephanie Marshall, 2003-12-16 First Published in 2002 Routledge is an imprint of Taylor Francis an information company Current Trends in Semantic Web Technologies: Theory and Practice Giner Alor-Hernández, José Luis Sánchez-Cervantes, Alejandro Rodríguez-González, Rafael Valencia-García, 2019-01-17 This book presents innovative and high

quality research regarding the implementation of Semantic Web technologies for knowledge representation and developing intelligent applications in various domains Semantic Web technologies have inspired many people to create innovative technologies and applications for knowledge representation Semantic Searches NLP and Social Networks The goal of this book is to collect and consolidate novel and high quality research contributions on Semantic Web technologies and their theoretical and practical application to a range of different domains In addition to researchers the book offers a valuable resource for PhD students master and undergraduate students in IT related fields such as Computer Science and Information Systems
