5. Do not install this heater upside down, sideways, in ceiling, or floor. Install only as shown in this manual. Refer to **Mounting Clearances**, page 2 for minimum clearances that must be maintained.

11. Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the heater.
12. Should the heater become blocked or otherwise overheat, it is provided with a manual-reset thermal safety switch and alarm light that will activate to alert that the heater has cycled off. If warning light is on, check to see if the reason for the overheating can be identified. Remove any blockage, allow heater to cool, then press Reset button. Heater should return to normal operation. Do not continue to use heater if it repeatedly cycles off. Have it inspected and repaired by a qualified repair person.
