Knowledge and Change in African Universities Michael Cross, amasa ndofirepi, 2017-01-28 Besides the ongoing concern with the epistemological and theoretical hegemony of the West in African academic practice the book aims at understanding how knowledge is produced and controlled through the interplay of the politics of knowledge and current intellectual discourses in universities in Africa In this regard the book calls for African universities to relocate from the position of object to subject in order to gain a form of liberated epistemological voice more responsive to the social and economic complexities of the continent In itself this is a critical expos of contemporary practices in knowledge advancement in the continent Broadly the book addresses the following questions How can African universities reinvent knowledge production and dissemination in the face of the dominant Eurocentricism so pervasive and characteristic of academic practice in Africa to enhance their relevance to the contexts in which they operate How can such change particularly at knowledge production and distribution levels be undertaken without falling into an intellectual and discursive ghettoization in the global context What then is the role of academics policy makers and curriculum and program designers in dealing with biases and distortions to integrate policies knowledge and pedagogy that reflect current cultural diversity both local and global Against this backdrop while some contributions in this book argue that emancipatory epistemic voice in African universities is not yet born or it is struggling with little success many dissenting voices charge that if Africans do not take responsibility and construct knowledge strategies for their own emancipation who will *ECRM 2020 20th European Conference on Research Methodology for Business and Management Studies* Dr. Manuel Au-Yong-Oliveira, Professor Carlos Costa, 2020-06-18 The European Conference on Research Methodology for Business and Management Studies was established 19 years ago This event has been held in countries across Europe including Ireland England France Malta Portugal Spain to mention only a few of the countries who have hosted it The conference is generally attended by participants from more than 25 countries The Electronic Journal of Business Research Methods indexed by Scopus publishes a special edition of the best papers presented at this conference The conference once again played host to the Innovation in Teaching of Research Methodology Excellence Awards **ECEL 2018 17th European Conference on e-Learning** Klimis Ntalianis, Antonios Andreatos, Cleo Sgouropoulou, 2018-11-01 The European Conference on e Learning was established 17 years ago It has been held in France Portugal England The Netherlands Greece and Denmark to mention only a few of the countries who have hosted it ECEL is generally attended by participants from more than 40 countries and attracts an interesting combination of academic scholars practitioners and individuals who are engaged in various aspects of e Learning Among other journals the Electronic Journal of e Learning publishes a special edition of the best papers presented at this conference **Promoting Entrepreneurship to Reduce Graduate Unemployment** Katono, Isaac Wasswa, 2022-04-01 Based on recognition evaluation and exploitation of opportunities entrepreneurship is a process that stimulates economic

growth provides us with new products and services and serves as a solution to low unemployment rates. Hence many governments encourage their citizens to embrace entrepreneurship as a strategy to mitigate unemployment particularly youth and graduate unemployment. While studies show that entrepreneurship education has yielded positive results in Western countries, in other parts of the world it seems that most students still prefer to seek paid employment in their career of choice. Promoting Entrepreneurship to Reduce Graduate Unemployment seeks to expand understanding of the barriers that face graduates in becoming entrepreneurs in various countries, examining the role of educational institutions in promoting graduate entrepreneurship and evaluating governments as well as other schemes that promote graduate entrepreneurship. Although it will not be a panacea for all the obstacles that impede graduate entrepreneurship, it is hoped that this book will illuminate the entrepreneurship career path, serve as a platform for further diagnosis for reducing graduate unemployment, and highlight areas in need of further research. Covering topics such as entrepreneurial self-efficacy, career choice, and educated unemployment, it serves as a dynamic resource for educators, educational administration, and faculty, government institutions, graduate students, student organizations, professionals, researchers, and academicians.

Light Sensitive Learners Wendy Johnson, 2024-04-08. This book explains why Australian governments are doing nothing for marginalised light sensitive learners. Government inaction is explored via policymaking theories and contrasted with a case study of active policymaking in a NSW high school which resulted in improved academic results. This book exposes inequity and provides a warrant for action. A must read for policy scholars who want to detect and understand policy inaction, educators who want to support Light Sensitive Learners, lighting designers who want to reduce the negative impacts of artificial lighting, lawyers who want to understand the original intent and importance of the clause learning differently in the Disability Discrimination Act, parents who want to know who's to blame. **Business Economics**, 2000 *Business Studies* South Africa.
