Gcse Higher Maths Past Papers November 2013:

Sociology and Social Work Jo Cunningham, Steve Cunningham, Alice O'Sullivan, 2022-09-23 Sociological perspectives can be used to analyse societal and structural influences on human behaviour at individual group and community levels The authors link sociological concepts debates and theories relating to key areas such as poverty social exclusion education social class and social justice to develop your students understanding of how sociological perspectives will impact upon their social work placements and practice This book begins by taking you step by step through the ins and outs of why sociology is important to social work It explains the relevance of sociology to everyday social work practice introducing you to the core sociological perspectives that you ll need to get to grips with during your course including functionalism Marxism symbolic interactionism and postmodernism The book then moves on to explore various social issues in detail i e poverty social class social exclusion education moral panics with extended case studies activities and links to skills in practice illustrating the many opportunities and challenges that each aspect brings to everyday practice There are also important chapters on family community and the role of sociology in social work training Educating Tomorrow's Engineers Great Britain: Parliament: House of Commons: Science and Technology Committee, 2013-02-08 In the UK we teach young people to become computer users and consumers rather than programmers and software engineers This is creating a chronic skills gap in ICT We need around 82 000 engineers and technicians just to deal with retirements up to 2016 and 830 000 SET professionals by 2020 On the plus side the Government s proposal to include computer science as a fourth science option to count towards the EBac is welcomed The Committee also welcomes the EBac s focus on attainment of mathematics and science GCSEs but is concerned that subjects such as Design and Technology D T might be marginalised A Technical Baccalaureate TechBac is being designed but if it is to be a success schools should be incentivised to focus on the TechBac by making it equivalent to the EBac Reforms to vocational education following the Wolf Review meant that Level 2 of the Engineering Diploma a qualification highly regarded would count as equivalent to one GCSE despite requiring curriculum time and effort equivalent to several GCSEs The Engineering Diploma however is currently being redesigned as four separate qualifications The Committee also expressed concerns over the Department for Education s DfE lack of clarity on its research budget and use of evidence in decision making The DfE needs to place greater focus on gathering evidence before changes to qualifications are made and must leave sufficient time for evidence to be gathered on the effectiveness of policies before introducing further change The possibility of gathering evidence from randomised controlled trials RCTs should be seriously considered

Social Policy in a Cold Climate Ruth Lupton, Tania Burchardt, John Hills, Kitty Stewart, Polly Vizard, 2016-04-20 Social Policy in a Cold Climate offers a data rich evidence based analysis of the impact Labour and coalition government policies have had on inequality and on the delivery of services such as health education adult social care housing and employment in the wake of the greatest recession of our time The authors provide an authoritative and unflinching analysis of recent

approaches to social policy and their outcomes following the financial crisis with particular focus on poverty and inequality Through a detailed look at spending outputs and outcomes the book offers a unique appraisal of Labour and the coalition s impact as well as an insightful assessment of future directions This volume offers a much awaited follow up to the critically acclaimed *A more equal society* 2005 and *Towards a more equal society* 2009 *The Armed Forces Covenant in action?* Great Britain: Parliament: House of Commons: Defence Committee,2013-07-18 A series of Ofsted inspections on Army Apprenticeships conducted in 2013 rated the overall effectiveness as good This was an improvement over the last inspection in 2009 rated as satisfactory now called requires improvement Some 28 per cent of Army recruits were less than 18 years of age Further information is needed on why the Army is so dependent on recruiting personnel under the age of 18 years compared to the other two Services and whether steps are being taken to reduce this dependency Of those recruited in 2012 3 5 per cent of the Army were rated at entry level 2 for literacy that of a 7 to 8 year old and 39 per cent had a literacy level of an eleven year old If as the MoD states it has to recruit personnel at whatever level of attainment is available then it should boost remedial action when recruitment entry standards are particularly low In light of changes brought about by Future Force 2020 it may be that recruiting personnel with higher levels of attainment would better meet the future needs of the Armed Forces Whilst the Committee recognises that some recruits may not be eager to take further academic exams the MoD should encourage more recruits to undertake English and Maths GCSEs which would stand them in good stead for future employment The MoD has carried out some useful pilot projects with paramedic training and should identify more potential projects to ensure that vital skills paid for by the MoD are not lost to the country *Celebrating Life Customs around the World* Victoria R.
