 long time I have wanted to put together a book about social and evaluation anxiety Social evaluation anxiety seemed to be a
 stressful part of so many people's everyday experience It also seemed to be apart of so many of the clinical problems that I
 worked with Common terms that fit under this rubric include fears of rejection humiliation criticism embarrassment ridicule
 failure and abandonment Examples of social and evaluation anxiety include shyness social inhibition social timidity public
 speaking anxiety feelings of self consciousness and awkwardness in social situations test anxiety performance anxiety in
 sports theater dance or music shame guilt separation anxiety social withdrawal procrastination and fear of job interviews or
 job evaluations of asking someone out of not making a good impression or of appearing stupid foolish or physically
 unattractive In its extreme form social anxiety is a behavior disorder in its own right social phobia This involves not only
 feelings of anxiety but also avoidance and withdrawal from social situations in which scrutiny and negative evaluation are
 anticipated Social evaluation anxiety also plays a role in other clinical disorders For example people with agoraphobia are
 afraid of having a panic attack in public in part because they fear making a spectacle of themselves Moreover even their
 dominant terrors of going crazy or having a heart attack seem to reflect a central concern with social abandonment and
 isolation *Honda CRF Performance Handbook* Eric Gorr, *Handbook of Blue Collar Occupational Families and Series*
