Finney, Tyrell Mayfield, 2018-10-15 This edited collection will expand upon and refine the ideas on the role of ethics and the profession in the 21st Century The authors delve into whether Samuel Huntington and Morris Janowitz still ring true in the 21st century whether training and continuing education play a role in defining a profession and if there is a universal code of ethics required for the military as a profession Redefining the Modern Military is unique in how it treats the subject of ethics and the military profession as well as the types of writers it brings on board to address this topic The book puts a significant emphasis on individual agency for military professionalism as opposed to broad organizational or cultural change Such a review of these topics is necessary because the process of serious intellectual self reflection is a requirement especially in a profession that involves life and death of people and nations
