Grade 1sepedi Exam Paper:

English-Medium Instruction and Translanguaging BethAnne Paulsrud, Zhongfeng Tian, Jeanette Toth, 2021-01-20 This book offers a critical exploration of definitions, methodologies and ideologies of English medium instruction (EMI) contributing to new understandings of translanguaging as theory and pedagogy across diverse contexts. It brings together a number of conceptual and empirical studies on translanguaging in EMI at different educational levels in a variety of countries with different approaches to translanguaging, different named languages and different policies. These studies include several underrepresented contexts across the globe, providing a broad view of how translanguaging in EMI is understood in these educational settings. Furthermore, this book addresses the complexities of translanguaging through a discussion of the affordances and constraints associated with the use of multiple linguistic resources in the EMI classroom.

Equality in Education: Fairness and Inclusion Hongzhi Zhang, Philip Wing Keung Chan, Christopher Boyle, 2014-10-24 Equality in Education: Fairness and Inclusion is a scholarly call to action. As the book reminds us, governments come and go and in doing so they busy themselves with policy to mark their patch. Inequality and exclusion remain stubborn foes that are proving to be somewhat impervious to glossy policy pronouncements. The change that Hugo Claus calls for requires careful analysis and bold actions. The editors have assembled a collection of insightful essays that assist in that project. Professor Roger Slee, Victoria University Melbourne, Australia. This book attempts to consider the notion of fairness and inclusion in the context of education from different national perspectives, which is a laudable undertaking. The Editors have managed to put together a diverse, informative and interesting account of equality and fairness that transcends international borders. The Editors are to be commended on their remarkable achievement in bringing together so many authors to discuss such an important subject, yet producing a cohesive collection of chapters that elucidate the diverse nature of equity in education. Professor Divya Jindal, Snape University of Dundee, UK.

Language and Power in Post-Colonial Schooling Carolyn McKinney, 2016-07-15 Critiquing the positioning of children from non-dominant groups as linguistically deficient, this book aims to bridge the gap between theorizing of language in critical sociolinguistics and approaches to language in education. Carolyn McKinney uses the lens of linguistic ideologies, teachers' and students' beliefs about language to shed light on the continuing problem of reproduction of linguistic inequality. Framed within global debates in sociolinguistics and applied linguistics, she examines the case of historically white schools in South Africa, a post-colonial context where political power has shifted but where the power of whiteness continues to provide new insights into the complex relationships between language and power and language and subjectivity. Implications for language curricula and policy in contexts of linguistic diversity are foregrounded. Providing an accessible overview of the scholarly literature on language ideologies and language as social practice and resource in multilingual contexts, *Language and Power in Post-Colonial Schooling* uses the conceptual tools it presents to analyze classroom interaction and ethnographic observations from

the day to day life in case study schools and explores implications of both the research literature and the analyses of students and teachers discourses and practices for language in education policy and curriculum **Artificial Intelligence in**
