Plant Adaptations to Phosphate Deficiency Alex Joseph Valentine, Alejandra

Zúñiga-Feest,Aleysia Kleinert,Pablo Cornejo,Vagner A. Benedito,2021-05-18 Phosphate is an essential mineral to all plants and its availability in soils is an increasing challenge for agriculture Phosphate is abundant in soils but its biological availability is often low due to the complexes that it forms with soil minerals and compounds The biological availability of Phosphate is further reduced in acidic soils which represent approximately 40% of earth s arable agricultural lands Agricultural systems compensate Phosphate deficiency with fertilizers coming from the mining of rock phosphate which is estimated to exhaust within the next 50 years For these reasons Phosphate limitations in natural and agricultural ecosystems is going to become a global problem and we urgently need to better understand how plants respond to Phosphate deficiency

The Neuroethology of Birdsong Jon T. Sakata,Sarah C. Woolley,Richard R. Fay,Arthur N. Popper,2020-03-19 Vocal signals are central for social communication across a wide range of vertebrate species consequently it is critical to understand the mechanisms underlying the learning control and evolution of vocal communication Songbirds are at the forefront of research into such neural mechanisms Indeed songbirds provide a particularly important model system for this endeavor because of the many parallels between birdsong and human speech Specifically 1 songbirds are one of the few vertebrate species that like humans learn their vocal signals during development 2 the processes of song learning and control in songbirds shares many parallels with the process of speech acquisition in humans and 3 there exist deep homologies between the circuits for the learning control and processing of vocal signals across songbirds and humans In addition because of the diversity of songbirds and song learning strategies songbirds offer a powerful model system to use the comparative method to reveal mechanisms underlying the evolution of song learning and production Taken together research on songbirds can not only reveal general principles underlying vertebrate vocal communication but can also provide insight into potential mechanisms underlying the learning control and processing of speech This volume will cover a range of topics in birdsong spanning multiple level of analysis Chapters will be authored by the world s leading experts on birdsong and will provide comprehensive reviews of the processes underlying song learning of the neural circuits for song learning and control as well as for the extraction and processing of song information of the selection pressures underlying song evolution and of genetic and molecular mechanisms underlying the learning and evolution of song The primary goals of this volume are to provide comprehensive integrative and comparative perspectives on birdsong and to underscore the importance of birdsong to biomedical research evolutionary biology and behavioral systems and computational neuroscience The target audience of this volume will be graduate students postdoctoral fellows and established academics and neuroscientists who are interested in mechanisms of communication from an integrative and comparative perspective The volume is intended to function as a high profile and contemporary reference on current work related to the learning control processing and evolution of birdsong This volume will have broad appeal to comparative and sensory biologists neurophysiologists and behavioral systems and cognitive neuroscientists who attend meetings such as the Society for

Busygina, 2017-07-20 Examining Russia-EU relations in terms of the forms and types of power tools they use this book argues that the deteriorating relations between Russia and the EU lie in the deep differences in their preferences for the international status quo These different approaches combined with economic interdependence and geographic proximity means both parties experience significant difficulties in shaping strategy and formulating agendas with regards to each other The Russian leadership is well aware of the EU's authority orientation but fails to reliably predict foreign policy at the EU level whilst the EU realizes Russia's coercive orientation in general but cannot predict when and where coercive tools will be used next Russia is gradually realizing the importance of authority while the EU sees the necessity of coercion tools for coping with certain challenges The learning process is ongoing but the basic distinction remains unchanged and so their approaches cannot be reconciled as long as both actors exist in their current form Using a theoretical framework and case studies including Belarus Georgia and Ukraine Busygina examines the possibilities and constraints that arise when the power of authority and the power of coercion interact with each other and how this interaction affects third parties The Authoritarian International Stephen G. F. Hall, 2023-05-25 Focusing on Russia and Eastern Europe Hall argues that democracies can preserve their norms and values by better understanding how authoritarian regimes learn It will be of interest to scholars advanced students and policymakers concerned with the politics of authoritarianism and the politics of

Russia and Central and Eastern Europe *Faculty Salaries in California's Public Universities*, 1986 Data-Centric Business and Applications Andriy Semenov,Iryna Yepifanova,Jana Kajanová,2024-04-07 This book examines aspects of financial and investment processes as well as the application of information technology mechanisms to business and industrial management using the experience of the Ukrainian economy as an example An effective tool for supporting business data processing is combining modern information technologies and the latest achievements in economic theory The variety of industrial sectors studied supports the continuous acquisition and use of efficient business analysis in organizations In addition the book elaborates on multidisciplinary concepts examples and practices that can be useful for researching the evolution of developments in the field Also in this book there is a description of analysis methods for making decisions in business finance and innovation management **The Dual Penal State** Markus D. Dubber,2018-09-04 In *The Dual Penal State* Markus Dubber addresses the rampant use of penal power in Western liberal democracies The interference with the autonomy of the very persons upon whose autonomy the legitimacy of state power is supposed to rest is systemically normalized rather than continuously scrutinized The fundamental challenge of the penal paradox the prima facie illegitimacy of modern punishment remains unaddressed and unresolved Focusing on the United States and Germany and drawing on his influential account of the patriarchal origins of police power Dubber exposes the persistence of a two sided criminal justice regime the dual penal state The dual penal state combines principled punishment of equals under the rule of law on one side with punitive discipline of others under the rule of police on the other Slavery has long played a central role in drawing the line between the two sides of the dual penal state In Europe the slave appears in the classic and still foundational accounts of liberal punishment from Beccaria to Kant as the paradigmatic other beyond the protection of law not a legal subject but a mere object of the master s or the state s discretionary discipline In America the patriarchal power to police portrays the continuum from the antebellum slaveholder s whipping of his slaves in private and the racial terror perpetrated by slave patrols in public to the apartheid regime of Jim Crow and the treatment of prisoners as slaves of the state and eventually to the late 20th century s systemic racial violence of the war on crime and the widespread killing of Black suspects by an increasingly militarized and armed police force that triggered the global Black Lives Matter movement **ECSM 2017 4th European Conference on Social Media** Academic Conferences and Publishing Limited,2017-07-03 *Lie and non-Lie Symmetries: Theory and Applications for Solving Nonlinear Models* Roman M. Cherniha,2018-07-06 This book is a printed edition of the Special Issue *Lie Theory and Its Applications* that was published in *Symmetry* **Facing homelessness** Stephan de Beer,Rehana Vally,2022-02-10 In *Facing homelessness* Finding inclusionary collaborative solutions we face the other and in facing the other we face ourselves This book contributes to an emerging body of knowledge on street homelessness in the South African context It is meant for researchers and scholars who are committed to finding solutions for street homelessness It offers conceptual frameworks and practical guidelines for a liberating and transformative response

to homelessness It brings together authors from a wide range of disciplines fusing the rigour of researchers the vision of activists and the lived experience of practitioners In this volume the causes of street homelessness in South Africa today and its different faces are traced It critiques singular solutions and interrogates the political institutional and moral failures that contribute to the systemic exclusion of homeless persons and other vulnerable populations from society It proposes rights based interventions as part of a radical re imagination of how street homelessness can be ended one person and one neighbourhood at a time The analysis by the authors steers the direction of new ways of doing and being that could demonstrate concrete viable and sustainable alternatives to the exclusionary realities faced by homeless persons It argues for solution based approaches aimed at radical forms of social inclusion and achieved through broad based and creative collaborations by all spheres of society In the face and presence of street homelessness as one expression of urban vulnerability and deep socio economic inequality society is confronted with a clear political institutional moral and personal obligation This volume calls for a reclamation of community in its most inclusionary life affirming and interdependent sense asserting that we truly are well because of others and we are unwell if others are It is a call to reclaim our common humanity in the context of inclusive communities where all are equally welcome and bestowed with dignity and honour
