How To Be Idle A Loafers Manifesto:

How to Be Idle Tom Hodgkinson, 2007-04-24 From the founding editor of The Idler the celebrated magazine about the freedom and fine art of doing nothing comes not simply a book but an antidote to our work obsessed culture In How to Be Idle Tom Hodgkinson presents his learned yet whimsical argument for a new universal standard of living being happy doing nothing He covers a whole spectrum of issues affecting the modern idler sleep work pleasure relationships while reflecting on the writing of such famous apologists for it as Oscar Wilde Robert Louis Stevenson and Nietzsche all of whom have admitted to doing their very best work in bed

Signs of the Great Refusal Tedd Siegel, 2023 In recent years developed countries have seen the rise of discussions concerning the problem with work today Since this literature tends to reflect the frustrations of the professional managerial class as well as other workers in globalized services industries in the digital age it is often at a significant distance from the concerns of the organized labor movement and the traditional Left Much of this literature presents an unacceptable either or workers are encouraged either to lean in and become better human capital or else to develop forms of palliative care for these same neoliberal selves by means of personal projects of self optimization recovery and wellness In Signs of the Great Refusal Tedd Siegel challenges the assumptions supporting these highly constrained possibilities asking instead what it might take to deprivatize and repoliticize work itself under contemporary conditions in order to make a broad based politics of refusal potentially viable Where postwork antiwork and degrowth discussions taking place today often describe and promote various postwork imaginaries in which the de commodification of labor is only implied Signs of the Great Refusal is concerned specifically with the postwork political imaginary Taking up a question formulated by Peter Fleming Siegel asks Can the impossibility at the heart of contemporary capitalism be politically activated to oppose and escape work as we know it

Autopilot Andrew Smart, 2013-07-01 Andrew Smart wants you to sit and do nothing much more often and he has the science to explain why At every turn we re pushed to do more faster and more efficiently that drumbeat resounds throughout our wage slave society Multitasking is not only a virtue it s a necessity Books such as Getting Things Done The One Minute Manager and The 7 Habits of Highly Effective People regularly top the bestseller lists and have spawned a considerable industry But Andrew Smart argues that slackers may have the last laugh The latest neuroscience shows that the culture of effectiveness is not only ineffective it can be harmful to your well being He makes a compelling case backed by science that filling life with activity at work and at home actually hurts your brain A survivor of corporate mandated Six Sigma training to improve efficiency Smart has channeled a self described loathing of the time management industry into a witty informative and wide ranging book that draws on the most recent research into brain power Use it to explain to bosses family and friends why you need to relax right now
