killing superfluous bodies or extra ordinary destruction disappearance are brought to the fore by prominent voices in these fields alongside more junior creative thinkers to rethink the politics of life and death in the global polity away from dominant IR or political theory paradigms about power force and violence The volume features chapters that offer thought provoking reconsiderations of key concepts theories and practices about death and death making along with other chapters that seek to challenge some of these concepts theories or practices in settings that include the Palestinian territories Brazilian cities displaced population flows from the Middle East sites of immigration policing in North America and spaces of welfare politics in Scandinavian states
