Memoirs of a Breton Peasant Jean-Marie Deguignet, 2011-10-18 A fascinating document of an extraordinary life Memoirs of A Breton Peasant reads with the liveliness of a novel and bristles with the vigor of an opinionated autodidact from the very lowest level of peasant society Brittany during the nineteenth century was a place seemingly frozen in the Middle Ages backwards by most French standards formal education among rural society was either unavailable or dismissed as

unnecessary while the church and local myth defined most people's reasoning and motivation Jean Marie Deguignet is unique not only as a literate Breton peasant but in his skepticism for the church his interest in science astronomy and languages and for his keen often caustic observations of the world and people around him Born into rural poverty in 1834 Deguignet escapes Brittany by joining the French Army in 1854 and over the next fourteen years he fights in the Crimean war attends Napoleon III's coronation ceremonies supports Italy's liberation struggle and defends the hapless French puppet emperor Maximilian in Mexico He teaches himself Latin French Italian and Spanish and reads extensively on history philosophy politics and literature He returns home to live as a farmer and tobacco seller eventually falling back into dire poverty Throughout the tale Deguignet's freethinking almost anarchic views put him ahead of his time and often sadly for him out of step with his contemporaries Deguignet's voluminous journals nearly 4 000 pages in total were discovered in a farmhouse in Brittany a century after they were written This narrative was drawn from them and became a surprise bestseller when published in France in 1998

Postcolonial Brittany Heather Williams, 2007 This book investigates the space between the two languages of modern day Brittany through a series of close readings of literary texts that represent Brittany or Bretonness in the French language This is the space that is negotiated by translation be it a smooth translation of Breton scenes and themes into a French fit for the salons of the capital or a foreignizing translation of Breton motifs into a French that writhes and struggles to accommodate them It is also the space negotiated by the bilingual author who writes in the shadow of the other language the literary conventions of one may litter his work in the other or the idioms and syntax of one may make their ghostly presence felt in the other But it can equally be a space of violence as in the case of the writer whose whole community has lost its mother tongue and writes under protest in the language of the cultural oppressor or colonizer As the first sustained analysis of the literature produced between French and Breton this book shows us how literary language is affected by such inter cultural tensions and also what it can mean to be caught between cultures Voices of the People in

Nineteenth-Century France David Hopkin, 2012-04-26 This innovative study of the lives of ordinary people peasants fishermen textile workers in nineteenth century France demonstrates how folklore collections can be used to shed new light on the socially marginalized David Hopkin explores the ways in which people used traditional genres such as stories songs and riddles to highlight problems in their daily lives and give vent to their desires without undermining the two key institutions of their social world the family and the community The book addresses recognized problems in social history such as the division of power within the peasant family the maintenance of communal bonds in competitive environments and marriage strategies in unequal societies showing how social and cultural history can be reconnected through the study of individual voices recorded by folklorists Above all it reveals how oral culture provided mechanisms for the poor to assert some control over their own destinies *How the French Learned to Vote* Malcolm Crook, 2021 This is a comprehensive history of voting in France which offers original insights into all aspects of electoral activity that today involve most adults

across the world *The Discovery of France: A Historical Geography* Graham Robb, 2008-10-17 A witty engaging narrative style Robb's approach is particularly engrossing New York Times Book Review A narrative of exploration full of strange landscapes and even stranger inhabitants that explains the enduring fascination of France While Gustave Eiffel was changing the skyline of Paris large parts of France were still terra incognita Even in the age of railways and newspapers France was a land of ancient tribal divisions prehistoric communication networks and pre-Christian beliefs French itself was a minority language Graham Robb describes that unknown world in arresting narrative detail He recounts the epic journeys of mapmakers scientists soldiers administrators and intrepid tourists of itinerant workers pilgrims and herdsmen with their millions of migratory domestic animals We learn how France was explored charted and colonized and how the imperial influence of Paris was gradually extended throughout a kingdom of isolated towns and villages The Discovery of France explains how the modern nation came to be and how poorly understood that nation still is today Above all it shows how much of France past and present remains to be discovered A New York Times Notable Book Publishers Weekly Best Book Slate Best Book and Booklist Editor's Choice

The Last of the Celts Marcus Tanner, 2004-01-01 Award winning author Tanner has journeyed throughout the Celtic world from the wilds of Northwest Scotland to the Isle of Man and from Boston to Cape Breton seeking the Celtic past and what remains of authentic culture **Alternative Exchanges** Laurence Fontaine, 2008-04-01 Exchanges have always had more than economic significance values circulate and encounters become institutionalized This volume explores the changing meaning of the circulation of second hand goods from the Renaissance to today and thereby examines the blurring of boundaries between market gifts and charity It describes the actors of the market official entities such as corporations recognized professions and established markets but also the subterranean circulation that develops around the need for money The complex layers that not only provide for numerous intermediaries but also include the many men and women who as sellers or buyers use these circulations on countless occasions are also examined

Henry Dunant Corinne Chaponnière, 2022-01-13 Timely and significant Church Times A pioneer of humanitarianism and founder of the International Red Cross Henry Dunant was many things over his lifetime A devout Christian and social activist an ambitious but failed businessman a humanitarian genius and a bankrupt recluse In this biography Corinne Chaponniere reveals the tumultuous trajectory of Henry's life From his idyllic childhood in Geneva she follows Henry through the horrors of the Battle of Solferino his creation of the Red Cross and role in the Geneva Conventions the disgrace of his bankruptcy and his resurrection as a Nobel Peace Prize winner It shows how this champion of wounded soldiers and prisoners of war was not an unblemished picture of piety and goodness but that his empathy and good works played out in tandem with his social ambition and personal drive It shows how even the best of us fall on hard times and that the Red Cross was born out of humanitarian ideals coupled with a desire for personal success This book reveals the story of Henry Dunant blemishes and all against the backdrop of the horrors of war the weight of religion and the birth of humanitarianism in the 19th century

History Beyond Trauma Francoise Davoine, Jean-Max Gaudilliere, 2013-03-26 In the course of nearly thirty years of work with patients in psychiatric hospitals and private practice Francoise Davoine and Jean Max Gaudilliere have uncovered the ways in which transference and countertransference are affected by the experience of social catastrophe Handed down from one generation to the next the unspoken horrors of war betrayal dissociation and disaster in the families of patient and analyst alike are not only revived in the therapeutic relationship but when understood actually provide the keys to the healing process The authors present vivid examples of clinical work with severely traumatized patients reaching inward to their own intimate family histories as shaped by the Second World War and outward toward an exceptionally broad range of cultural references to literature philosophy political theory and anthropology Using examples from medieval carnivals and Japanese No theater to Wittgenstein and Hannah Arendt to Sioux rituals in North Dakota they reveal the ways in which psychological damage is done and undone With a special focus on the relationship between psychoanalysis and the neurosciences Davoine and Gaudilliere show how the patient analyst relationship opens pathways of investigation into the nature of madness whether on the scale of History world wars Vietnam or on the scale of Story the silencing of horror within an individual family In order to show how the therapeutic approach to trauma was developed on the basis of war psychiatry the authors ground their clinical theory in the work of Thomas Salmon an American doctor from the time of the First World War In their case studies they illustrate how three of the four Salmon principles proximity immediacy and expectancy affect the handling of the transference countertransference relationship The fourth principle simplicity shapes the style in which the authors address their readers that is with the same clarity and directness with which they speak to their patients
