Entrepreneurship Research Journal:

Entrepreneurship Research Journal ,2011 **Entrepreneurship Research** Vanessa Ratten,2023-08-22 This book explores how the COVID 19 pandemic has changed entrepreneurial business practices and policies The role of digitalization and de internationalisation as part of entrepreneurial business thinking is discussed in this book as a way of keeping track with new research avenues Due to the fundamental way the COVID 19 pandemic shocked and surprised entrepreneurs it becomes important to develop new business patterns The discussion in this book centres on the question how has business practices changed in the post COVID 19 era and what needs to be learnt Each chapter in this edited book presents a different way to understand these changes and make sense of alterations in the global business environment thereby ensuring that business academics policy makers and practitioners are kept abreast of changes Whilst there have been books on the COVID 19 pandemic this book goes a step further by presenting new research into the post COVID 19 pandemic era that is of a recent nature This means it is amongst the first edited book to focus on patterns in terms of business marketing and management that have an entrepreneurial nature This is helpful to gain a better nuanced and detailed understanding about the implications that are ongoing and future orientated arising from the COVID 19 pandemic *Handbook of Entrepreneurship Research* Zoltan J. Acs,David B. Audretsch,2010-08-03 Interest in and attention to entrepreneurship has exploded in recent years Nevertheless much of the research and scholarship in entrepreneurship has remained elusive to academics policymakers and other researchers in large part because the field is informed by a broad spectrum of disciplines including management finance economics policy sociology and psychology often pursued in isolation from each other Since its original publication in 2003 the Handbook of Entrepreneurship Research has served as the definitive resource in the field bringing together contributions from leading scholars in these disciplines to present a holistic multi dimensional approach This new edition fully revised and updated and including several new chapters covers all of the primary topics in entrepreneurship including entrepreneurial behavior risk and opportunity recognition equity financing business culture and strategy innovation and the impact of entrepreneurship on economic growth and development Featuring an integrative introduction extensive literature reviews and reference lists the Handbook will continue to serve as a roadmap to the rapidly evolving and dynamic field of entrepreneurship *Handbook of Entrepreneurship Research* Zoltán J. Ács,David B. Audretsch,2003 Introduction to entrepreneurship The entrepreneurial process Opportunity and the nature of exploitation The emergence of new ventures Financing the new venture The social context Entrepreneurship economic growth and policy *Entrepreneurship Research in Europe* Odd Jarl Borch,Alain Fayolle,Elisabet Ljunggren,2011-01-01 This topical book demonstrates the importance of entrepreneurship research at a time of turbulent environments as well as highlighting the most recent developments in the field **Handbook of Entrepreneurship Research** ZOLTAN ACS,DAVID AUDRETSCH,2006-04-07 Interest and attention to entrepreneurship has exploded in recent years Yet much of the research

and scholarship has remained elusive to academics policymakers and other researchers This reflects two crucial aspects of the entrepreneurship literature First has been the explosion of new findings and insights both theoretically and empirically Second most of this scholarship has been rooted in traditional academic disciplines spanning a broad spectrum of fields such as management finance economics sociology and psychology The purpose of the Handbook of Entrepreneurship is to bring together leading scholars from each of these disciplines to provide an overview of what the issues are for entrepreneurship when viewed through the lens provided by the academic disciplines as well as a synthesis about what has been learned and what questions should be high on the agenda for future research Taken together this Handbook will provide a roadmap to an emerging complex but intriguing field of entrepreneurship

Entrepreneurship Research in Europe Alain Fayolle, Paula Kyrö, J. M. Ulijn, 2005-01-01 In this vital new book leading international scholars highlight the unique characteristics and rich variety of European research in entrepreneurship They pursue several different perspectives and focus on the key issues and most significant developments in the field

The Entrepreneurship Research Challenge Per Davidsson, 2009-01-01 this is a single authored book a series of academic papers some original some fairly recently published neatly set around a unifying theme and tied into a comprehensive argument once you have shared Davidsson's insights stumblings joys and humor over some 240 pages it feels as if he were part of your family The book sets off with a very clear and helpful introduction that lays out the entrepreneurship phenomenon This book is value adding for a fairly wide academic audience essentially all those interested in diverse areas of entrepreneurship and innovation or in questions of methodology research design and interpretation of ultimately any complex fast paced behavioural and social realities It does not give us all the answers thank heavens but it certainly asks some excellent questions the novice scholar will find some welcome foothold and guidance this book is simply fun to read when could you last say that of a research methodology book Jacqueline Fendt International Journal of Entrepreneurial Behaviour and Research Unquestionably Per Davidsson can be considered a leading voice of authority on the study of entrepreneurship as an academic discipline From the initial introduction through to the latter discussions one aspect of this textbook that immediately makes itself apparent to the reader is Davidsson's markedly personal and deeply engaging writing style The Entrepreneurship Research Challenge is notably distinct from many of the generic business research methods texts in that it does not attempt to portray an objective toolbox of methodological choices Instead the style is such that the reader feels that Davidsson truly wishes for his audience to learn from his unique experiences opinions and even mistakes the practical advice provided is both insightful and useful this text is not simply about how to go through the motions of the research process Instead it makes a very well reasoned attempt to form a basis for the discipline as a whole as well as to address methods to overcome unique challenges while promoting research output that is useful For these reasons it should be considered essential reading for any entrepreneurship scholar and in particular for those at the early stages of their research career Russell Matthews International Small Business Journal

Entrepreneurship is an emerging dynamic and to a considerable extent unpredictable phenomenon. Thus it makes for a challenging research subject. In this book one of the most experienced empiricists in the field has collected some of his most important ideas on how improved conceptualization and research design can make this challenge more manageable. Per Davidsson addresses questions such as: What precisely is entrepreneurship and entrepreneurship research? What unique contribution can it make compared with research in other fields? Conversely, how can scholars with different disciplinary backgrounds best contribute to the study of entrepreneurship? What does the emergent and highly diverse nature of entrepreneurship imply for research design? And what is required from entrepreneurship researchers and practitioners in order for the research to make strong contributions to business and policy practice? This comprehensive in-depth account of how the emergence of new entrepreneurial activity can be studied will be warmly welcomed by researchers and academics in the areas of entrepreneurship, innovation, and methodology and research design.

De Gruyter Handbook of Sustainable Entrepreneurship Research Gjalte de Jong, Niels Faber, Emma Folmer, Tom Long, Berfu Ünal, 2023-10-04. Many countries and regions face unprecedented social and environmental crises and disruptive events whose impact can no longer be ignored. Sustainable entrepreneurs offer new solutions to these problems that involve replacing the current linear economies by circular systems. Sustainable entrepreneurs generate new sustainable products, services, and production processes with new sustainable business models that simultaneously balance ecological, social, and economic goals, which result in sustainable welfare for current and for future generations. The De Gruyter Handbook of Sustainable Entrepreneurship Research studies the causes and consequences of sustainable entrepreneurship, the new standard of doing business, and designing public policy as reflected in the growth of sustainable entrepreneurship start-up ventures and the increasing integration of sustainability in small and medium-sized enterprises as well as in incumbent corporations. It explores five main themes, each presenting state-of-the-art thinking, foundations, leadership, innovation, business models, performance, and impact. Each section consists of four chapters that taken together offer in-depth perspectives, take stock of current situations, and propose new avenues for future research. The handbook offers a coherent and systemic perspective for sustainable start-ups and for incumbent firms and governments aiming for transitions. It will also be of interest to scholars and postgraduate students interested in sustainable entrepreneurship.

Nurturing Modalities of Inquiry in Entrepreneurship Research David Higgins, Catherine Brentnall, Paul Jones, Pauric McGowan, 2023-11-10. This edited collection stimulates discussion, shares practice, and explores challenges around current and new approaches to inquiry encompassing all aspects of entrepreneurship research from its conception through to its execution and related issues such as education, training, and learning.

Big Questions and Great Answers in Entrepreneurship Research Alain Fayolle, Sandrine Le Pontois, R. D. M. Pelly, 2024-10-03. *Big Questions and Great Answers in Entrepreneurship Research* underscores the progress that has been made and the challenges that remain within the field of entrepreneurship research by considering the field's rapid expansion.

over the last thirty years **Neuroscience and Entrepreneurship Research** Víctor Pérez Centeno, 2022-12-28 This book asserts the emergence of the fourth era of entrepreneurship based on a brain driven approach to the study instruction and practice of entrepreneurship This paradigm shift stems from the need to incorporate appropriate neurotechnologies into the exploration and enhancement of entrepreneurial phenomena in order to best address the field s methodological challenges The author explains why a paradigm shift is necessary in the field of entrepreneurship and provides the foundational guidelines for those interested in implementing it Furthermore a model of entrepreneurial enhancement is conceptualized and signalled as the ultimate goal of this new era Scholars practitioners policymakers and students interested in advancing entrepreneurship s contribution to academia business and society at large will benefit from this new era s multidisciplinary perspective and unique strengths **Contextual Heterogeneity in Entrepreneurship Research** Laveren, Eddy, Ben-Hafaïedh, Cyrine, Kurczewska, Agnieszka, Jiang, Yi D., 2021-09-07 This insightful book explores the importance and influence of contextual heterogeneity in the field of entrepreneurship research illuminating the circumstances conditions or environments that may enable or constrain entrepreneurship **Rigour and Relevance in Entrepreneurship Research, Resources and Outcomes** Eddy Laveren, Robert Blackburn, Ulla Hytti, Hans Landström, 2019 This insightful book examines the need to bridge the gap between scientific rigour in entrepreneurship research and its practical relevance to external stakeholders and demonstrates clearly how this can be achieved in practice Featuring cutting edge research Rigour and Relevance in Entrepreneurship Research Resources and Outcomes presents and evaluates current critical approaches in the field analysing their theoretical value and their relevance to policy and practice **Handbook of Qualitative Research Methods in Entrepreneurship** Helle Neergaard, John P. Ulhøi, 2007 the Handbook of Qualitative Research Methods in Entrepreneurship is an important contribution to the field and should be referenced in any paper using qualitative methodologies to investigate the entrepreneurial phenomenon Craig S Galbraith Journal of Enterprising Communities There is no hiding behind the ramparts of dry scholarship here The credibility of the theory being spoken of is not the stuff of constructed proofs but alignments of critical insight and utility This is where qualitative work can make a difference to the field and where this book makes its mark Robin Holt International Journal of Entrepreneurial Behaviour and Research The Handbook of Qualitative Research Methods in Entrepreneurship is an unusually solid and multifaceted book on what qualitative methods have done are doing and will do in entrepreneurship research Every serious entrepreneurship scholar should read it It points at the future Björn Bjerke University of Kalmar Sweden I would warmly recommend this unique collection of qualitative methods of entrepreneurship research to both mature and beginning researchers as a menu to choose from for their planned empirical studies For those who try to get away from only quantitative studies in both business practice and academic research this book is their chance to find a rich inspiration in reflecting on entrepreneurship as a lived experience using grounded theory and ethnographic discourse and narrative approaches It might convince editors of top

journals of entrepreneurship research to welcome qualitative research submissions as an indispensable complement to quantitative only submissions. This domain is not physics. In bringing together such a variety of experts from so many nationalities in this Handbook, our Danish colleagues are making entrepreneurship research a realistic global venture. Jan Ulijn, Eindhoven University of Technology, The Netherlands; Helle Neergaard and John Parm Ulhøi have compiled a remarkable collection of work that both represents the range of methods and demonstrates the depth of insight that can be achieved through qualitative approaches. This book is not simply a handbook of qualitative research methods, though it well achieves this aim; it is also an important contribution towards the field of entrepreneurship research. From the Foreword by Sara Carter. This expansive and practical Handbook introduces the methods currently used to increase the understanding of the usefulness and versatility of a systematic approach to qualitative research in entrepreneurship. It fills a crucial gap in the literature on entrepreneurship theory and just as importantly illustrates how these principles and techniques can be appropriately and fruitfully employed. The Handbook is underpinned by the belief that qualitative research has the potential to charter hitherto unexplored waters in the field of entrepreneurship and thus contribute significantly to its further advancement. The contributors seek to assist entrepreneurship researchers in making more informed choices and designing more rigorous and sophisticated studies. They achieve this by providing concrete examples of research experiences and tangible how-to advice. By clarifying what these research methods entail, how they are currently being used, and how they can be evaluated, this Handbook constitutes a comprehensive and highly accessible methodological toolbox. Dealing with both well-accepted qualitative approaches and lesser-known, rarer and more novel approaches to the study of entrepreneurship, this Handbook will be invaluable to those studying, researching, and teaching entrepreneurship. *Great Minds in Entrepreneurship Research* Vishal K. Gupta, 2020-10-31. Awarded every year since 1996, the Global Award for Entrepreneurship Research (GAER) recognizes outstanding contributions in quality and importance to scientific research in entrepreneurship. This book examines the work of GAER award winners 1996-2020, discusses major contributions to the field, identifies critiques of their work, and highlights directions for future research. Students and faculty will find this book to be a rich resource for understanding the impact of leading entrepreneurship scholars. *Handbook of Measures for International Entrepreneurship Research* Nicole Coviello, Helena Yli-Renko, 2016-03-25. The Handbook of Measures for International Entrepreneurship Research is a user-friendly collection of multi-item measures developed and used in the research of international entrepreneurship and important areas related to it: international business, entrepreneurship, marketing strategy, and innovation. Editors Nicole Coviello and Helena Yli-Renko carefully compiled 212 scales from over 820 possible measures using rigorous selection criteria. The scales fall into eight distinct categories: Individual level influences, Firm and team level influences, External environmental influences, Relationships, networks, and social capital, Organizational learning, Capabilities, Orientation, and strategy, Performance, and innovation outcomes. For each scale, the book includes the following information to

enable ease of use summary construct definition description source development or adaptation procedures sample validity scores references and scale items This standout Handbook not only builds a compelling case for a more rigorous approach to research methods in international entrepreneurship research but also explores the best practices in development adaptation use and reporting of multi item measures Academic researchers in international entrepreneurship international business entrepreneurship marketing strategy and or innovation will find this reference tool a welcome addition to their survey research practices Policy makers conducting research in these areas will also appreciate this book

Conceptual Richness and Methodological Diversity in Entrepreneurship Research Alain Fayolle, Paula Kyrö, Tõnis Mets, Urve Venesaar, 2013-01-01 I can confidently say that I believe the chapters published in this volume are addressing interesting questions that we should care about I can only applaud the series editors for their initiative effort and time in producing yet another exceptional volume Helle Neergaard Aarhus University Denmark This important book identifies the current developments within entrepreneurship that are characterized by conceptual richness and methodological diversity It presents the latest developments of topics such as the entrepreneurial mindset culture and values as well as advances in entrepreneurship education and development The contributors open the field for methodological renewal by introducing the current state of and opportunities for explorative research in entrepreneurship Researchers practitioners and policymakers will find the research in this book both innovative and refreshing which will be particularly useful for those looking to renew their practices It will also provide academics with some new ideas to adopt in their teaching and research in order to help their students to acquire entrepreneurial competences

Pioneers in Entrepreneurship and Small Business Research H. Landstrom, 2007-12-31 Around the world there is an increasing interest in issues of small business and entrepreneurship In a time with a lot of myths and opinions of the role of entrepreneurs and small business it is vital for a book like this to encapsulate the knowledge that can be gained from the most significant research contributions in the field Such knowledge is often build upon empirical oriented methods providing policy relevant results for small business owners and entrepreneurs The aim of Pioneers in Entrepreneurship and Small Business Research is first to provide a historical doctrinal review of the development of entrepreneurship and small business research and second to present some of the key pioneers that have shaped the research field during the past three decades The book focuses on the first recipients of the FSF NUTEK International Award for Small Business Research including David Birch Arnold Cooper David Storey Ian MacMillan Howard Aldrich Zoltan Acs David Audretsch and Giacomo Becattini

Trends In Innovation And Entrepreneurship Research: Ecosystems, Digital Technologies And Responses To Shocks Alexander Brem, Jin Chen, 2023-06-28 The chapters in the book focus on recent developments in the field of technological innovation and entrepreneurship It is structured in three parts The focus is on innovation and entrepreneurial ecosystems digital technologies and innovation as well as responses to pandemics resulting from external shocks Carefully selected on the basis of relevance and rigor the chapters in the book take

the readers through various trending research topics
