Iqbal El-Badawi,2022-12-01 A genuinely paradigm shifting work by one of the most exciting and innovative scholars in the field compelling and powerful Reza Aslan Arab noblewomen of late antiquity were instrumental in shaping the history of the world Between Rome s intervention in the Arabian Peninsula and the Arab conquests they ruled independently conducting trade and making war Their power was celebrated as queen priestess and goddess With time some even delegated authority to the most important holy men of their age influencing Arabian paganism Christianity and Islam Empress Zenobia and Queen Mavia supported bishops Paul of Samosata and Moses of Sinai Paul was declared a heretic by the Roman church while Moses began the process of mass Arab conversion The teachings of these men survived under their queens setting in motion seismic debates that fractured the early churches and laid the groundwork for the rise of Islam In sixth century Mecca Lady Khadijah used her wealth and political influence to employ a younger man then marry him against the wishes of dissenting noblemen Her husband whose religious and political career she influenced was the Prophet Muhammad A landmark exploration of the legacy of female power in late antique Arabia Queens and Prophets is a corrective that is long overdue

Clash of Modernities Khaldoun Samman,2015-12-03 To understand the Middle East we must also understand how the West produced a temporal narrative of world history in which westemers placed themselves on top and all others below them In a landmark reinterpretation of Middle Eastern history this book shows how Arabs Muslims Turks and Jews absorbed revised yet remained loyal to this Western vision Turkish Kemalism and Israeli Zionism in their efforts to push their people forward accepted the narrative almost wholeheartedly eradicating what they perceived as archaic characteristics of their Jewish and Turkish cultures Arab nationalists negotiated a more culturally schizophrenic approach to appeasing the colonizer s gaze But so too Samman argues did the Islamists who likewise wanted to improve their societies But in order to modernize Islamists prescribed the eradication of Western contamination and reintroduced the prophetic stage that they believe if the colonizer and their local Arab coconspirators hadn t intervened would have produced true civilization Samman s account explains why Islamists broke more radically with the colonizer s insult For all these nationalists gender would be used as the measuring device of how well they did in relation to the colonizer s gaze The Art of Resistance in Islam Yafa

Shanneik,2022-01-20 Based on first hand ethnographic insights into Shi i religious groups in the Middle East and Europe this book examines women s resistance to state as well as communal and gender power structures It offers a new transnational approach to understanding gender agency within contemporary Islamic movements expressed through language ritual practices dramatic performances posters and banners By looking at the aesthetic performance of the political on the female body through Shi i ritual practices an aspect that has previously been ignored in studies on women s acts of resistance Yafa Shanneik shows how women play a central role in redefining sectarian and gender power relations both in the Middle East and in the European diaspora The Most Learned of the Shi'a Linda S. Walbridge,2001 The problem of who should succeed the Prophet has plagued the Islamic community since the time of his death The Shiites have decided on a successor

but that does not solve who is the lawful marja or grand ayatollah of all the Shi'a

Feeding Iran Rose Wellman, 2021-06-15 Since Iran's 1979 Revolution the imperative to create and protect the inner purity of family and nation in the face of outside spiritual corruption has been a driving force in national politics Through extensive fieldwork Rose Wellman examines how Basiji families as members of Iran's voluntary paramilitary organization are encountering enacting and challenging this imperative Her ethnography reveals how families and state elites are employing blood food and prayer in commemorations for martyrs in Islamic national rituals to create citizens who embody familial piety purity and closeness to God Feeding Iran provides a rare and humanistic account of religion and family life in the post revolutionary Islamic Republic that examines how home life and everyday piety are linked to state power

Martyrdom and Sacrifice in Islam Meir Hatina, 2016-11-14 Over the years the belief system around self sacrifice has become key to understanding the Middle East and its political relationships with the West although much of the literature and conversation has been restricted to modern concepts of jihadism The recent spate of scholarship relating to suicide bombers and jihadists studies these concepts without a broader understanding of the principle of martyrdom This book expands on the chronology of self sacrifice within Islam and contextualises the use of suicide bombings using details of the rise of martyrdom in places such as Iraq Lebanon Chechnya and Pakistan It historicises the background in which jihad has been glorified while also exploring contemporary methods of recruitment like the use of the internet The authors pay close attention to the different sects and factions of Islam and the differing interpretations of jihad that accompany these ideologies In the current political climate a book that explores martyrdom within the framework of historical perspectives geographical regions and the influence of outside cultures is essential

Precision in the Global War on Terror Sherifa Zuhur, 2008 Never before have Americans paid so much attention to Islam and Muslim ideology Although efforts have been made to separate mainstream views from extremist principles Muslims feel that many of their basic beliefs are under attack in the ongoing war of ideas The author explores why surveying a broad swath of accusations and efforts to change Muslim and Islamist ideas and institutions

Overcoming Tradition And Modernity Robert D. Lee, 2018-02-12 Authenticity has begun to rival development as a key to understanding the political aspirations of the Islamic world Almost everywhere modernity has laid waste to tradition those habits and practices deemed to be timeless and true Imperialism carried European notions of progress into Muslim dominated parts of the globe and subsequently Muslims themselves espoused Western practices techniques and philosophies Regimes calling themselves liberal socialist and Arab nationalist all embraced modernity as their principal objective Most of these regimes failed to create the promised better lives their citizens desired Moreover ordinary Muslims felt despair as modernity ripped apart families exposed youngsters to the materialism and hedonism of Western entertainments heightened social expectations and undermined religious belief Even though

tradition has proved itself incapable of staving off modernity the promises and premises of modern development literature have been called into question Where is the truth around which Muslims can rally Does modernity require a rejection of tradition Does the embrace of Islamic ideas necessitate turning away from modernity Robert D Lee explores these compelling questions by presenting four contemporary Muslim writers Muhammad Iqbal Sayyid Qutb Ali Shari ati and Mohammed Arkoun all of whom have refused to bow to such a dichotomy of modernity and tradition This study examines their efforts deeply influenced by European thinking to find a truth beyond tradition and modernity an authentic understanding of Islam upon which Muslims can build a future All four thinkers believe such an authentic understanding can serve as the foundation for a new politics Lee argues however that each of these versions of authenticity suffers shortcomings and falters in its efforts to move from the particularity of culture onto a grander scale of political organization appropriate for the modern world

Female Divinity in the Qur'an Emran El-Badawi,2024-07-04 This is the first book to examine how pre Islamic Late Antique goddesses shaped the Qur'an including its basic theology and cosmology Exploring the traces found in the text of cultic veneration to goddesses of Arabia and the Ancient Near East this book analyses what these traces tell us about female power in late antique Arabia and how this power changed on the advent of Islam While recent studies on the Qur'anic God have typically considered the question of divinity separately from gender this book bridges the gap between these two questions and is therefore an essential constructive mission This mission adduces literary and documentary evidence including recent scholarly revolutions in Syriac literature and Arabian epigraphy and builds upon the critical insights of preceding studies in conversation with post biblical and Near Eastern traditions
