**Fear for Frances** Veronica Heley, 1977-01-01      **Francis of Assisi as Artist of the Spiritual Life** Andrew T. McCarthy, 2010-08-13 Francis of Assisi as Artist of the Spiritual Life applies modern psychological understanding to a historical person While most such studies have sought a comprehensive personality profile this work focuses on one aspect Francis imagination and seeks greater insight into the imaginatively inspired spiritual vision of St Francis An analysis of Francis writings builds on a survey of modern views of the imagination and the approach of ORT or Object Relations Theory ORT with its contention that the imaginative creation of an infant s world develops out of the earliest interactions with the maternal caregiver highlights the way Francis formed his way of visualizing the reality around him While any study of a person 800 years in the grave is more dependent on what is plausible than on what is determinable this study finds numerous examples where Francis writings display an adept use of imagination and even encourages others in that use in a manner that corresponds to an ORT perspective on tutoring the imagination      **Francis of Assisi's Sermon on the Mount** John Michael Talbot, 2019-05-21 Talbot applies the timeless words of St Francis to our troubled times In the United States and across the world we are experiencing polarization anger and violence But God is still in control and it is important to dig deep into our Christian heritage in a way that speaks to all people St Francis is one of the great saints who somehow reaches across all divides touches hearts and souls and brings spiritual peace Talbot explores Francis s Admonitions twenty eight teachings that are among the most beautiful and troubling of the saint s writings Covering sacramental theology of the Eucharist to communal issues of consecrated life to very private aspects of faith and devotion these Admonitions provide clear and radical road signs to the destination on our spiritual journey in Christ      **Mimesis as Make-Believe** Kendall L. Walton, 1990 Representations in visual arts and fiction play an important part in our lives and culture Walton presents a theory of the nature of representation which shows its many varieties and explains its importance His analysis is illustrated with examples from film art literature and theatre      *The young D., a novel.
