Piano and the Edwardian Novel Cecilia Bjorken-Nyberg,2016-03-03 In her study of music making in the Edwardian novel Cecilia Bjorken-Nyberg argues that the invention and development of the player piano had a significant effect on the perception performance and appreciation of music during the period In contrast to existing devices for producing music mechanically such as the phonograph and gramophone the player piano granted its operator freedom of individual expression by permitting the performer to modify the tempo Because the traditional piano was the undisputed altar of domestic and highly gendered music making Bjorken-Nyberg suggests the potential for intervention by the mechanical piano s operator had a subversive effect on traditional notions about the status of the musical work itself and about the people who were variously defined by their relationship to it She examines works by Dorothy Richardson E M Forster Henry Handel Richardson Max Beerbohm and Compton Mackenzie among others contending that Edwardian fiction with music as a subject undermined the prevalent antithesis expressed in contemporary music literature between a nineteenth century conception of music as a means of transcendence and the increasing mechanisation of music as represented by the player piano Her timely survey of the player piano in the context of Edwardian commercial and technical discourse draws on a rich array of archival materials to shed new light on the historically conditioned activity of music making in early twentieth century fiction **The SAGE Handbook of Popular Music** Andy Bennett,Steve Waksman,2015-01-19 The SAGE Handbook of Popular Music is a comprehensive smartly conceived volume that can take its place as the new standard reference in popular music The editors have shown great care in covering classic debates while moving the field into new exciting areas of scholarship International

in its focus and pleasantly wide ranging across historical periods the Handbook is accessible to students but full of material of interest to those teaching and researching in the field Will Straw McGill University Celebrating the maturation of popular music studies and recognizing the immense changes that have recently taken place in the conditions of popular music production The SAGE Handbook of Popular Music features contributions from many of the leading scholars in the field Every chapter is well defined and to the point with bibliographies that capture the history of the field Authoritative expertly organized and absolutely up to date this collection will instantly become the backbone of teaching and research across the Anglophone world and is certain to be cited for years to come Barry Shank author of The Political Force of Musical Beauty 2014 The SAGE Handbook of Popular Music provides a highly comprehensive and accessible summary of the key aspects of popular music studies The text is divided into 9 sections Theory and Method The Business of Popular Music Popular Music History The Global and the Local The Star System Body and Identity Media Technology Digital Economies Each section has been chosen to reflect both established aspects of popular music studies as well as more recently emerging sub fields The handbook constitutes a timely and important contribution to popular music studies during a significant period of theoretical and empirical growth and innovation in the field This is a benchmark work which will be essential reading for educators and students in popular music studies musicology cultural studies media studies and cultural sociology

Gender and the Musical Canon Marcia J. Citron, 2024-04-22 A classic in gender studies in music Marcia J Citron s comprehensive balanced work lays a broad foundation for the study of women composers and their music Drawing on a diverse body of feminist and interdisciplinary theory Citron shows how the western art canon is not intellectually pure but the result of a complex mixture of attitudes practices and interests that often go unacknowledged and unchallenged Winner of the Pauline Alderman Prize from the International Alliance of Women in Music Gender and the Musical Canon explores important elements of canon formation such as notions of creativity professionalism and reception Citron surveys the institutions of power from performing organizations and the academy to critics and the publishing and recording industries that affect what goes into the canon and what is kept out She also documents the nurturing role played by women including mothers in cultivating female composers In a new introduction she assesses the book s reception by composers and critics especially the reactions to her controversial reading of Cécile Chaminade s sonata for piano A key volume in establishing how the concepts and assumptions that form the western art music canon affect female composers and their music Gender and the Musical Canon also reveals how these dynamics underpin many of the major issues that affect musicology as a discipline

Music, Politics, and the Academy Pieter C. van den Toorn, 1996 I value this book for its idealism its positive vote for autonomy and technical analysis its courageous answer to feminist musicology its exposure of the contradictions of academic politics Its importance lies not in settling the debates but in construing the issues in new and provocative ways Kofi Agawu author of Playing with Signs We need books like this It deals with major topics raises critical issues and develops numerous interesting

ideas and it is written in an engaging manner The book should attract attention and will provide at least one articulate countervoice to the discussion of important issues currently affecting the field that have been raised by those professing to the New Musicology Robert Morgan author of Twentieth Century Music *Gender in Chinese Music* Rachel A. Harris, Rowan Pease, Shzr Ee Tan, 2013 *Gender in Chinese Music* draws together contributions from ethnomusicologists anthropologists and literary scholars to explore how music is implicated in changing notions of masculinity femininity and genders in between in Chinese culture *Gender, Age and Musical Creativity* Catherine Haworth, Lisa Colton, 2016-03-03 From the perennially young precocious figure of little orphan Annie to the physical and vocal ageing of the eighteenth century castrato interlinked cultural constructions of age and gender are central to the historical and contemporary depiction of creative activity and its audiences *Gender Age and Musical Creativity* takes an interdisciplinary approach to issues of identity and its representation examining intersections of age and gender in relation to music and musicians across a wide range of periods places and genres including female patronage in Renaissance Italy the working class brass band tradition of northern England twentieth century jazz and popular music cultures and the contemporary New Music scene Drawing together the work of musicologists and practitioners the collection offers new ways in which to conceptualise the complex links between age and gender in both individual and collective practice and their reception essays explore juvenilia and late style in composition and performance the role of public and private institutions in fostering and sustaining creative activity throughout the course of musical careers and the ways in which genres and scenes themselves age over time **Towards a Twenty-First-Century Feminist Politics of Music** Sally Macarthur, 2016-02-24 *Towards a Twenty First Century Feminist Politics of Music* opens up a new way of thinking about the absence of women's music It does not aim to find a solution in a liberal feminist sense but to discover new potentialities new possibilities for thought and action Sally Macarthur encourages us with the assistance of Deleuze and feminist Deleuzian work to begin the important work of imagining what else might be possible not in order to provide answers but to open up the as yet unknown The power of thought or what Deleuze calls the virtual opens up new possibilities Macarthur suggests that the future for women's new music is not tied to the predictable and known but to futures beyond the already known Previous research concludes that women's music is virtually absent from the concert hall and yet fails to find a way of changing this situation Macarthur finds that the flaw in the recommendations flowing from past research is that it envisages the future from the standpoint of the present and it relies on a set of pre determined goals It thus replicates the present reality so reinforcing rather than changing the status quo Macarthur challenges this thinking and argues that this repetitive way of thinking is stuck in the present unable to move forward Macarthur situates her argument in the context of current dominant neoliberal thought and practice She argues that women have generally not thrived in the neoliberal model of the composer which envisages the composer as an individual autonomous creator and entrepreneur Successful female composers must work with this dominant modernist aesthetic and

exploit the image of the neo romantic entrepreneurial creator This book sets out in contrast to develop a new conception of subjectivity that sows the seeds of a twenty first century feminist politics of music
