Focus on Vocabulary Learning Marlise Horst, 2019-02-14 Focus on Vocabulary Learning explores teaching vocabulary to second and foreign language learners aged 5-18. It describes the considerable challenges of learning the vocabulary of a new language from a range of perspectives and aims to equip teachers with practical solutions to meet these challenges. This book provides corpus-informed insights into teaching the vocabulary that is most useful to learners and examines classroom-based research to identify effective learning strategies. A rich variety of practical activities and examples from real classrooms link theory to practice. It is startling and it is shaming in a country that prides itself on being among the most enlightened in the world. 25 million American adults cannot read the poison warnings on a can of pesticide, a letter from their child's teacher or the front page of a newspaper. An additional 35 million read below the level needed to function successfully in our society. The United States ranks forty-ninth among 158 member nations of the UN in literacy and wastes over 100 billion annually as a result. The problem is not merely an embarrassment; it is a social and economic disaster. In *Illiterate America*, Jonathan Kozol, author of National Book Award-winning *Death at an Early Age*, addresses this national disgrace. Combining hard statistics and heartrending stories, he describes the economic and the human costs of illiteracy. Kozol analyses and condemns previous government action and inaction and, in a passionate call for reform, he proposes a specific program to conquer illiteracy. One out of every three American adults cannot read this book, which is why everyone else must. *InfoWorld*, 2004-09-27.
