Toward a Dramaturgical Sensibility Geoffrey S. Proehl, D. D. Kugler, Mark Lamos, Michael Lupu, 2008 Toward a Dramaturgical Sensibility begins with a moment in Shakespeare's Antony and Cleopatra in which Cleopatra says to Antony Not know me yet With these four words Cleopatra poses a simple but fundamental human problem What can we know She and Antony have known each other for years at times gloriously emotionally mentally and in the archaic sense of the word physically but still the challenge of knowing hangs in the air Cleopatra's question reminds us that knowledge is not simple that it is as likely to create yearning as satisfaction that it is not confined to any one part of the self that it is far from intellect alone It reminds us as do most great plays that life is part wonder part terror What we can know This study aimed at students teachers and theater artists suggests that the attempt to know the dramaturgy of a play is little different from the attempt to know another person for whom we care **BOOK JACKET**

Department of the Army, 1967-12 *The Morality of Knowledge in Conversation* Tanya Stivers, Lorenza Mondada, Jakob Steensig, 2011-06-02 Each time we take a turn in conversation we indicate what we know and what we think others know. However, knowledge is neither static nor absolute. It is shaped by those we interact with and governed by social norms we monitor one another for whether we are fulfilling our rights and responsibilities with respect to knowledge and for who has relatively more rights to assert knowledge over some state of affairs. This book brings together an international team of leading linguists, sociologists, and anthropologists working across a range of European and Asian languages to document some of the ways in which speakers manage the moral domain of knowledge in conversation. The volume demonstrates that if we are to understand how speakers manage issues of agreement, affiliation, and alignment, something clearly at the heart of human sociality, we must understand the social norms surrounding epistemic access, primacy, and responsibilities.
