Former Des Enseignants Reflexifs:

Former des enseignants réflexifs Marguerite Altet, Julie Desjardins, Richard Etienne, Philippe Perrenoud, Léopold Paquay, 2013-04-03 Ces dernières décennies les formations d'enseignants ont partout mis en avant la nécessité d'une formation par la réflexivité pour former un enseignant professionnel une pratique réflexive Depuis le praticien réflexif défini par D Schön 1983 partir de Dewey la pratique réflexive a fait l'objet de nombreux travaux de recherche qui tous en montrent l'intérêt au niveau de la construction des savoirs professionnels par l'action et la réflexion dans et sur l'action de la prise de conscience de l'action et du développement professionnel L'essence de cette pratique réflexive est cette posture de mise distance et d'analyse de sa propre action Mais cette prise de recul et de conscience ne va pas de soi et force est de constater que beaucoup d'étudiants qui cherchent avant tout faire face aux difficultés et urgences qu'ils rencontrent lors du choc de la réalité se sentent déstabilisés par cette approche réflexive et y résistent Appartient-il vraiment la formation initiale de développer cette posture Les chercheurs auteurs de l'ouvrage vont d'abord analyser derrière les injonctions les différentes conceptions de cette réflexivité qui n'est pas donnée d'emblée et partageant cet intérêt pour une formation professionnalisante réflexive vont prendre au sérieux les résistances observées en rechercher les raisons ils vont identifier les obstacles en examinant finement plusieurs hypothèses des représentations stéréotypées du métier et de la formation des représentations issues de l'expérience scolaire les styles des étudiants plus pragmatiques le scepticisme affiché de formateurs Les auteurs vont approfondir les exigences des dispositifs favorisant la réflexivité et montrer comment il est possible de travailler le sens de la réflexivité comme disposition intérieure pour la faire accepter et faciliter ainsi ce recul qui permet de s'adapter toute situation et surtout d'apprendre partir de l'expérience Ils vont galement proposer des pistes et des dispositifs dans lesquels les étudiants parviennent investir la démarche réflexive

et de la formation des représentations issues de l'expérience scolaire les styles des étudiants plus pragmatiques le scepticisme affiché des formateurs Les auteurs vont approfondir les exigences des dispositifs favorisant la réflexivité et montrer comment il est possible de travailler le sens de la réflexivité comme disposition intérieure pour la faire accepter et faciliter ainsi ce recul qui permet de s'adapter toute situation et surtout d'apprendre à partir de l'expérience Ils vont également proposer des pistes et des dispositifs dans lesquels les étudiants parviennent à investir la démarche réflexive

Former des enseignants réflexifs

Jean-Pierre Legault, 2004 La forme du curriculum dans les écoles implique des changements importants au niveau de la vision éducative Face aux attentes du MEQ c'est pour les enseignants une remise en question de certaines croyances Ainsi dans la démarche personnelle et collective que le MEQ leur demande d'effectuer il est permis de se demander dans quelle mesure ils sont vraiment outillés pour réfléchir sur leurs pratiques existantes Est-on certain que les étudiants qui ont naturellement réfléchi sur leur pratique au moment où ils étaient à l'université continuent de le faire lorsqu'ils entrent dans la profession Dit autrement est-ce que cette capacité de réflexion est le fruit d'une inclination innée peut-elle s'acquiescer et se développer au fil des ans voire s'enseigner Former des enseignants réflexifs propose au lecteur d'approfondir ses connaissances sur le phénomène de la réflexion dans l'enseignement et de s'approprier des outils susceptibles de l'aider à devenir un praticien réflexif Il trouvera dans cet ouvrage une description et une analyse des différentes dimensions du métier d'enseignant un aperçu de la recherche sur la réflexion des enseignants une synthèse des diverses conceptions de la réflexion et une clarification de certains concepts clés une introduction quelques modèles de réflexion issus de la littérature une présentation d'outils pratiques facilitant sa réflexion sur des aspects de son enseignement Cet ouvrage s'adresse tous les enseignants futurs et expérimentés Il pourrait être utile aux formateurs qui ont la responsabilité d'accompagner les professionnels de l'enseignement dans leur démarche réflexive Les directeurs d'établissement chargés de la gestion et de l'organisation de la formation continue dans leur milieu pourraient y trouver un intérêt

Buznic-Bourgeacq,2021-08-03 Allowing learners to take some responsibility may seem obvious yet what is actually afforded to them and how this process works remains difficult to grasp It is therefore essential to study the real objects of devolution and the roles played by the subjects involved Devolution and Autonomy in Education questions the concept of devolution introduced into the field of education in the 1980s from disciplinary didactics and described in Guy Brousseau s Theory of Didactical Situations in Mathematics as the act by which the teacher makes the student take responsibility for a learning situation adidactic or problem and accepts the consequences of this transfer The book revisits this concept through a variety of subject areas mathematics French physical education life sciences digital learning play and educational domains teaching training facilitation Using these intersecting perspectives this book also examines the purpose and timeline of the core process for thinking about autonomy and empowerment in education **Education for Responsibility** Hélène

Hagège,2019-07-30 Changing your mind to change the world is the general principle proposed to educate for responsibility Using an interdisciplinary scientific approach this book dissects the functioning of the ego that is to say the belief in a self an illusion that causes disharmony After an original modeling of the notion of responsibility the author deduces that it is incumbent on all of us to become aware of the relationship between our own minds and the world Thus gaining consistency and awareness everyone would have the potential to free themselves from the illusion of the ego and contribute to a more harmonious world This book therefore proposes psychospiritual skills favored in particular by different forms of reflexivity and by meditation and mindfulness which can serve as a basis for a curriculum to educate for responsibility This academic connection between meditation and ethics is a major innovative contribution **Development of Writing Skills in**

Children in Diverse Cultural Contexts Alina Galvão Spinillo,Carmen Sotomayor,2023-06-16 This book brings together multiple theoretical perspectives and disciplinary approaches to study the acquisition and development of written language by children as well as the implications for teaching and learning of writing practices in a variety of languages and cultural contexts Chapters in this contributed volume present both theoretical contributions and results of research carried out with students and teachers from 11 countries Belgium Brazil Chile Israel Italy Mexico the Netherlands Portugal Spain UK and USA who speak seven different languages Portuguese Spanish English Italian French Dutch and Hebrew By bringing together research developed in diverse cultural contexts it enriches the debates in the interdisciplinary field of writing studies by analyzing a wide range of topics at the interface between research and educational implications for the teaching and learning of writing by children The book consists of five parts each one addressing a specific set of topics Part I presents studies on topics related to written language representation systems phonological and morphological awareness and on the relationship between grammar and the quality of texts of different genres Part II includes studies related to compositional

processes of writing texts and the factors involved in these processes Part III focuses on the difficulties faced by students during the acquisition and development of writing Part IV is dedicated to chapters that discuss and compare writing practices in different social environments Finally chapters in part V deal with teaching and learning of writing in the school setting Development of Writing Skills in Children in Diverse Cultural Contexts Contributions to Teaching and Learning will be of interest to researchers and students in the fields of psychology education and linguistics as well as to other social scientists in the broader interdisciplinary field of writing studies

Questionner et valoriser le métier d'enseignant Pascal Guibert, Claude Lessard, Xavier Dejemeppe, Julie Desjardins, Olivier Maulini, 2019-06-03 La formation des enseignants comme d ailleurs toute formation s inscrit dans deux logiques apparemment contradictoires pour aider les professionnels valoriser leurs pratiques elle doit les conduire se remettre en question au risque de d stabiliser ceux qu elle pr tend former Questionner les pratiques ou les valoriser c est donc d finir le m tier d enseignant On ne peut pas former un m tier sans reconnaitre les savoir faire existants mais améliorer l enseignement implique galemment de chercher ce qui pose probl me condition bien s r que le souci critique ne de courage pas l envie de re ussir et de s engager Cet ouvrage n a pas pour objectif de d cr ter une seule bonne mani re de proc der mais de prendre appui sur la diversit des contextes de formation dans quatre pays francophones pour faire merger des variations et des r gularit s et ainsi interpeller la formation et au del le m tier d enseignant
