Geography 2014 November Exam Papers Grade 11:

The Knowledge Gap Natalie Wexler, 2019-08-06 Essential reading for teachers education administrators and policymakers alike STARRED Library Journal The untold story of the root cause of America's education crisis It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country's frustrating lack of progress when it comes to providing every child with a quality education The problem wasn't one of the usual scapegoats lazy teachers shoddy facilities lack of accountability It was something no one was talking about the elementary school curriculum's intense focus on decontextualized reading comprehension skills at the expense of actual knowledge In the tradition of Dale Russakoff's *The Prize* and Dana Goldstein's *The Teacher Wars* Wexler brings together history research and compelling characters to pull back the curtain on this fundamental flaw in our education system one that fellow reformers journalists and policymakers have long overlooked and of which the general public including many parents remains unaware But *The Knowledge Gap* isn't just a story of what schools have gotten so wrong it also follows innovative educators who are in the process of shedding their deeply ingrained habits and describes the rewards that have come along students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed If we truly want to fix our education system and unlock the potential of our neediest children we have no choice but to pay attention

The Rise and Fall of Civic Education Michael Learn, 2024-09-16 Social studies is a field in crisis The crisis stems from failure to establish the very foundation of social studies purpose in public education civic education Social studies advocates have never put forth a coherent method for teaching civic education because policymakers and the public have been unable to agree upon a general definition of civic education This issue has disrupted the field since the early days As educators sought to include civic education within public
