Human Rights Report Pakistan:

Pakistan and International Law Ahmad Ghouri, 2025-10-23 *Pakistan and International Law Dynamics of Identity and State Practice* offers a pioneering exploration of Pakistan's evolving relationship with international law. Framed through the lens of state identity, this volume critically examines how Pakistan, as a post-colonial and Muslim majority state, has engaged with, adapted to, and influenced international legal norms across diverse domains: from the United Nations system to individual rights and environmental protection, interstate arbitration, right to development, security, water, taxation, and more. The book features contributions from leading scholars and practitioners combining doctrinal analysis with critical perspectives rooted in Third World Approaches to International Law. It provides in-depth commentary on Pakistan's legislative, judicial, and diplomatic practices, offering a rare state-specific study that fills a significant gap in international legal scholarship. Readers will gain a nuanced understanding of Pakistan's legal landscape and its broader implications for global justice, legal pluralism, transnational legal discourses in international law, and the future of international law. It offers valuable insights into how international law operates in diverse cultural and political contexts and how state identity shapes and is shaped by global legal norms. The work will be of interest to academics, legal practitioners, policymakers, and students of international law, post-colonial legal studies, Islamic state practices, and South Asian geopolitics.

Pakistan Army: Legislator, Judge and Executioner Wing Commander (Dr) U C Jha, 2016-08-15 Almost every state in the world has an army to protect it from external aggression, except in the case of Pakistan where the relationship between the state and the army is in the reverse order. The Pakistan Army has the state. The army has governed the state directly during half of its existence and in the remaining half of its history indirectly. The Pakistan Army has also ensured that other independent organs of the state, executive and the judiciary, function under its shadow. The army has another unique feature: it runs the biggest business conglomerate that owns everything from factories and bakeries to farmland and golf courses. In 2015, the Parliament, by a two-third majority, handed over another responsibility to the army: trial of civilians in military courts on the ground that the criminal justice system and the civilian judiciary are incapable of handling the cases pertaining to terrorists. As the trials in summary military courts fall short as compared to national or international fair trial standards, the risk of serious miscarriage of justice cannot be ruled out. Several armed conflicts are taking place in Pakistan in which the armed forces and its allies, on war on terrorism, especially the military of the United States of America (USA), are involved in fighting several groups of militants and terrorists. The USA, as well as the Pakistan military, have used lethal drones against the citizens of Pakistan. The military's involvement on war on terror has led to devastating results in terms of loss of life, destruction of property; besides, they have also been responsible for enforced disappearances, a serious crime against humanity. This book analyses the Military Justice System of Pakistan and makes an assessment of its international obligations under the international human rights law and the laws of armed conflict.

Department of State,1977 State Responses to International Law Kendall Stiles,2014-09-19 Do countries keep their promises to the international community When they sign treaties or learn about new expectations do they take them seriously and implement them Since we already know intuitively that not all countries do the next question and the topic of this book is who complies By considering a wide range of different rules each precise enough to allow one to measure state compliance and a variety of methods we hope to answer this question once and for all Including a systematic analysis of 8 different countries selected for the variety of regime type international engagement and economic development they represent the work caps a five year research program and represents the culmination of twenty years worth of work in the disciplines of international relations and international law on legalization and compliance Stiles highlights the importance of systematic study of compliance in order to move further towards solving truly global issues such as terrorism human trafficking air pollution and collective goods provision With international laws generally designed to improve the human condition and current levels of compliance inconsistent at best it is vital to gain a better understanding of who complies and why This detailed study will be of interest to students of Politics International Law and International Relations **The Prospect of Nuclear Jihad in South Asia** Musa Khan Jalalzai,2015-10-01 When we talk about Pakistan s nuclear weapons armed forces and civilian governments then controversies and uninvited misperceptions swirl in our minds If we take in the broad picture we inevitably conclude that not all is going in the right direction in the country and that is because the army politicians and the establishment perceive jihadism as a profitable business They run this business of killings and torture through their proxies While we study the militarized mind of Pakistani generals and recognize their resentment towards civilian governments we find more controversies about the role of armed forces and their relationship with worldwide terrorist organizations International journalist Musa Khan Jalalzai is ideally positioned to present us with a picture of what is actually afoot and what it means for the future When we study the militarized mind of Pakistani generals and recognize their resentment towards civilian institutions we find more controversies about the role of armed forces and their relationship with worldwide terrorist organizations The Pakistan military controls the financial market stock exchange

real estate business banking sector and smuggling of narcotics Ethnic representation within the armed forces raises serious concerns Some experts say this is not a national army but view it as the club of Pashtun and Punjabi generals The army has failed to develop a true ethnic representation process or motivate Baloch and Sindhis to join the armed forces but they certainly have gained experience in killing innocent civilians Then there is the question of the Saudi investment in Pakistan s Islamic nuclear bomb Saudi Arabia s link with Pakistan s nuclear and missile program has long been the source of speculation that Pakistan might either station nuclear forces on Saudi sand or provide a nuclear umbrella to the Wahabi state in return for oil supply or that the Saudis would purchase nuclear weapons from Pakistan International journalist Musa Khan Jalalzai is ideally positioned to present us with a picture of what is actually afoot and what it means for the future **United States Security Interests in South Asia (Pakistan--India)** Peter W.
