To reduce the risk of electrical shock, install this light kit only on Hunter ceiling fan models with removable switch housings.

WARNING

- To avoid possible electrical shock, before installing light fixtures, disconnect power by turning off the circuit breakers both to the outlet box and to its associated wall switch location. If you cannot lock the circuit breakers in the off position, securely fasten a prominent warning device, such as a tag, to the service panel.

Connect house wiring to the fan before attaching the light fixture to the fan.

All wiring must be in accordance with national and local electrical codes and ANSI/NFPA 70. If you are unfamiliar with wiring, you should use a qualified electrician.

STEP 1: REMOVING WIRING HARNESS

Before you can install the modular accessory light kit, you must remove the wiring harness and its components from the modular switch housing on the fans listed above. You must then install the wiring harness into the modular accessory light kit.
