Throughout history Western women have inhabited a conceptual space divorced from the world of business But women have always engaged in business Who were these women and how were they able to justify their work outside the home The Business of Women explores the world of those women who embraced British Columbia s frontier ethos in the early twentieth century In this detailed examination of case studies and quantitative sources Buddle reveals that contrary to expectation the typical businesswoman was not unmarried or particularly rebellious but a woman reconciling her entrepreneurship with her identity as a wife mother or widow This groundbreaking study not only incorporates women into the history of business it challenges commonly held beliefs about women business and the marriage between the two **The World Who's who of Women** ,1984 *Alternative Schools in British Columbia 1960-1975* Harley Rothstein,2024-07-18 The tumultuous 1960s

1879 1914 give statistics for 1878 1913 **Piety and Plurality** Glenn Thomas Miller,2014-06-09 I began studying American
theological education in the 1970s and Piety and Plurality is the third of three studies In Piety and Intellect I examined the
colonial and nineteenth century search for a form of theological education that was true to the church s confessional
traditions and responsible to the intellectual demands of the age In Piety and Profession I described how that model was
modified under the impact of the new biblical criticism and by the American belief in professionalism In this volume I have
tried to bring the story up to date Unfortunately I did not find one unifying theme for the period Rather theological education
seemed to move forward on a number of different levels each with its own story Here I have tried to capture some of the
dynamics of this movement and to indicate how theological educators have struggled with the plurality in their midst In the
process theological education has learned to live with its contradictions and problems As important as the stories are
however there is also the story of the schools struggles to live in the midst of a constant financial crisis that checked
development at every stage The Book Trade in Canada ,2009
