**Women in Signal Processing** Hagit Messer,Monica Bugallo,Maria Sabrina Greco,Fauzia Ahmad,2022-12-12 At present less than 30% of researchers worldwide are women As an estimate this number is even lower in the field of Signal Processing with some sources indicating it could be around 10% Long standing biases and gender stereotypes are discouraging girls and women away from science related fields and STEM research in particular Science and gender equality

are however essential to ensure sustainable development as highlighted by UNESCO In order to change traditional mindsets gender equality must be promoted stereotypes defeated and girls and women should be encouraged to pursue STEM careers  
Frontiers in Signal Processing is proud to offer this platform to promote the work of women researchers and engineers across all areas of Signal Processing The work presented here highlights the diversity of research performed across the entire breadth of the Signal Processing landscape and presents advances in theory experiment and methodology with applications to compelling problems This article collection is open for submissions across all sections of the journal and new articles will be added as they are published Please note to be considered for this collection the corresponding author should be a female researcher      *MotorBoating* ,2000-05      **Pacific Fishing** ,2005      **Boating** ,2001-07
