Innovating in a Secret World Tina P. Srivastava, 2019-07-01 Our national security increasingly depends on access to the most sophisticated and advanced technology Yet the next time we set out to capture a terrorist leader we may fail Why The answer lies in a conflict between two worlds One is the dynamic global commercial world with its thriving innovations The other is the world of national security in which innovation is a matter of life or death The conflict is about secrecy *Innovating in a Secret World* is a detailed examination of the U S government and innovation landscapes and of the current trends in often secret national security related research and development R D Based on case studies detailed research and interviews with executives at Fortune 500s startup entrepreneurs and military directors and program managers this accessible and timely book is a must read Tina P Srivastava evaluates whether the strategy of technology innovation in the world of national security leaves certain innovations behind or unintentionally precludes certain classes of innovators from participating She identifies the unintended consequences and emergent behaviors of this conflict This examination unfolds in a complex dynamic system that includes the legal framework in which technology innovation must exist For more than a decade Srivastava has been on the front lines of cutting edge technology innovation She suggests focusing on an emerging class of R D strategy called open innovation a strategy that broadens participation in innovation beyond an individual organization or division traditionally assigned to perform R D activities Through compelling stories of commercial and early government applications she shows how open technology innovation strategies can enable accelerate and enhance technology innovation Successful incorporation of open innovation into the previously closed U S government R D landscape can yield profound benefits to both national security and global leadership Purchase the audio edition [Space Warfare in the 21st Century](#) Joan Johnson-Freese, 2016-11-08 This book examines the recent shift in US space policy and the forces that continually draw the US back into a space technology security dilemma The dual use nature of the vast majority of space technology meaning of value to both civilian and military communities and being unable to differentiate offensive from defensive intent of military hardware makes space an area particularly ripe for a security dilemma In contrast to previous administrations the Obama Administration has pursued a less militaristic space policy instead employing a strategic restraint approach that stressed multilateral diplomacy to space challenges The latter required international solutions and the United States subsequently even voiced support for an International Code of Conduct for Space That policy held until the Chinese anti satellite ASAT test in 2013 which demonstrated expanded Chinese capabilities This volume explores the issues arising from evolving space capabilities across the world and the security challenges this poses It subsequently discusses the complexity of the space environment and argues that all tools of national power must be used with some degree of balance toward addressing space challenges and achieving space goals This book will be of much interest to students of space policy defence studies foreign policy security studies and IR

The Will to Drill - Mining in Arctic Communities Brigit

Dale, Ingrid Bay-Larsen, Berit Skorstad, 2017-10-04 This book focuses on the connections between mining activities knowledge politics and the valuation of landscape in selected case sites in Russia Greenland and Norway whilst considering the interrelated aspects of industrialized natural resource based development and environmental concerns in the Arctic The case studies in these three different countries reveals that there are indeed multiple Arctics not least concerning the way extractive industries are received and perceived and that national legislation public awareness and economic alternatives are amongst the variables that influence to what extent environmental ramifications of mining are accepted Through analysis of political discourses legal documents grey literature discussions in local and national media and empirical material from in site fieldwork the authors seek to understand how debates about mining reveal more general conflicts and concerns about how to define sustainability The book contributes to the overall debates on both extractive industries and development trends in the Arctic and will as such be of interest for both established scholars and students as well as policy makers and the public The compilation of cases and variety of analytical perspectives will further stimulate the ongoing debates concerning the impacts of extractive industries on communities both in the Arctic and beyond *Corporate Governance in Central Europe and Russia*

Maria Aluchna, Samuel O. Idowu, Irina Tkachenko, 2020-03-04 This book examines corporate governance through a holistic lens that integrates financial social and environmental goals e.g. increasing transparency and disclosure In addition it investigates the theoretical assumptions guiding the current corporate governance practices adopted by companies in Central Europe and Russia The book presents a dynamic study on the evolution of corporate governance systems which were practically non-existent just 30 years ago In turn it addresses criticism leveled at corporate governance its impact on the outbreak of the financial crisis and recommendations for changes after the crisis The book employs a regional focus exploring a group of countries that have often been neglected in corporate governance research Carefully selected data and a variety of case studies prepared by leading authors from the region provide evidence to support the analysis **Reimagining the**

Judiciary Maria C. Escobar-Lemmon, Valerie J. Hoekstra, Alice J. Kang, Miki Caul Kittilson, 2022-01-13 This book examines the factors that facilitate the inclusion of women on high courts while recognizing that many courts have a long way to go before reaching gender parity Why did women start appearing on high courts when they did Where have women made the most significant strides To address these questions the authors built the first cross national and longitudinal dataset on the appointment of women and men to high courts In addition they provide five in depth country case studies us to unpack the selection of justices to high courts in Canada Colombia Ireland South Africa and the United States The cross national lens and combination of quantitative analyses and detailed country studies examines multiple influences across region and time Focusing on three sets of explanations pipelines to high courts domestic institutions and international influences analyses reveal that women are more likely to first appear on their country's high court when traditional ideas about who can and should be a judge erode In some countries international treaties regional emulation and women's international NGOs play a

role in disseminating and linking global norms of gender equality in decision making. Importantly, while informal institutions and reliance on men dominated networks can limit access, women are making substantial strides in their countries' highest courts where the supply grows and often where selectors have incentives to select women. Further sustained pressure from advocacy organizations at the local, national and global levels contributes to some gains. Introducing RDA Chris Oliver, 2021-04-06. Since Oliver's guide was first published in 2010, thousands of LIS students, records managers and catalogers, and other library professionals have relied on its clear, plainspoken explanation of RDA (Resource Description and Access) as their first step towards becoming acquainted with the cataloging standard. Now reflecting the changes to RDA after the completion of the 3R Project, Oliver brings her Special Report up to date. This essential primer concisely explains what RDA is, its basic features, and the main factors in its development; describes RDA's relationship to the international standards and models that continue to influence its evolution; provides an overview of the latest developments focusing on the impact of the 3R Project; the results of aligning RDA with IFLA's Library Reference Model (LRM) and the outcomes of internationalization; illustrates how information is organized in the post-3R Toolkit; and explains how to navigate through this new structure and discusses how RDA continues to enable improved resource discovery both in traditional and new applications including the linked data environment.

Proportionality and Facts in Constitutional Adjudication Anne Carter, 2022-01-27. This book considers the relationship between proportionality and facts in constitutional adjudication. Analysing where facts arise within each of the three stages of the structured proportionality test: suitability, necessity, and balancing, it considers the nature of these facts vis-à-vis the facts that arise in the course of ordinary litigation. The book's central focus is on how proportionality has been applied by courts in practice, and it draws on the comparative experience of four jurisdictions across a range of legal systems. The central case study of the book is Australia, where the embryonic and contested nature of proportionality means it provides an illuminating study of how facts can inform the framing of constitutional tests. The rich proportionality jurisprudence from Germany, Canada, and South Africa is used to contextualise the approach of the High Court of Australia and to identify future directions for proportionality in Australia at a time when the doctrine is in its formative stages. The book has three broad aims. First, it considers the role of facts within proportionality reasoning. Second, it offers procedural insights into fact-finding in constitutional litigation. Third, the book's analysis of the dynamic Australian case law on proportionality means it also serves to clarify the nature and status of

proportionality in Australia at a critical moment Since the 2015 decision of *McCloy v New South Wales* where four justices supported the introduction of a structured three part test of proportionality the Court has continued to disagree about the utility of such a test These developments mean that this book with its doctrinal and comparative approach is particularly timely

Fraud and Risk in Commercial Law Paul S Davies,Hans Tjio,2024-08-08 This book focuses on contemporary problems related to fraud and risk in commercial law It has been said by some that we are in a golden age of fraud In part this has been caused by globalisation technological changes and the financialisation of business This has resulted in the creation of automated linkages with integrated supply chains and the creation of systemic risks which have been exacerbated by new forms of intangible assets like tokens and their ease of movement While regulation has ebbed and flowed given the desire of governments to generate economic growth as well as the distrust of their coercive powers the courts have sought to strike a balance between considerations such as commercial certainty and fairness The book provides an analysis of key contemporary issues on the theme of fraud and risk in commercial law including technology and fraud secondary liability and failure to prevent economic crime abuse of business entities insolvency and creditor protection injunctions and other orders cross border issues the relationship between regulation and private law and solutions for policy makers

Peter Akinola: Who Blinks First? Gbenga Gbesan,2020-03-30

To the astonishment and dismay of Anglican leadership in the Global North Nigeria's Archbishop Peter Akinola led the Global South's revolt against the campaign to normalize homosexuality within the global Anglican communion For this he was twice recognized by Time magazine as one of the 100 Most Influential People on earth As shepherd of an immense Nigerian flock he joined arms with like minded archbishops in Africa Asia and South America to insist that the church be guided by the Bible rather than culture Here is the remarkable story of this conflict from its social beginnings in nineteenth century Germany through the renegade behavior of national churches in Canada the United States and the United Kingdom on to gatherings addressing the issues from Dromantine Northern Ireland to Kuala Lumpur Malaysia At one point Archbishop of Canterbury Rowan Williams who had been enabling the progressives challenged Archbishop Akinola We shall see who blinks first Since that day it is clear that neither Akinola nor his colleagues have blinked Indeed through the formation of GAFCON Global Anglican Future Conference and union with biblically faithful Anglicans in the Global North they are pressing their cause with an eye toward the next decennial assembly of bishops at Lambeth

Related Party Transactions and Corporate Groups Ivan Romashchenko, 2020-03-06 In a market environment where economic actors conduct themselves as diligent and conscientious managers the regulation of related party transactions RPTs would be largely irrelevant Unfortunately the corporate reality is far from an ideal world that is innocent of market abuse and corporate fraud It remains necessary to protect minority shareholders from the wrongdoings of majority shareholders and to protect all shareholders from opportunistic managerial behaviour This timely book the first on the subject since implementation of the European Union's EU's revised Shareholders Rights Directive provides in depth analysis of how and to what extent RPTs are covered by existing legal requirements on capital protection and corporate group regulation highlighting experiences and strategies adopted in Germany Poland and the Netherlands as examples for Eastern European countries and in particular Ukraine Beyond his comparative analysis of the current status the author offers recommendations for more effective handling of RPTs investigating such aspects as the following what constitutes a corporate group and how group issues are regulated in the various legal systems what constitutes a conflict of interest originating in ownership and control and what types of such conflicts occur whether RPTs within corporate groups should receive special treatment relative to transactions outside groups combatting corporate raiding most often carried out through illegal seizure of corporate assets approval and disclosure requirements for RPTs and how information about RPTs is disclosed publicly Drawing on resources including legislation case law scholarship and intensive discussions with practicing lawyers from several jurisdictions the author underscores the imperative of establishing limitations and requirements that oblige a company's officers shareholders and other potential related parties to follow certain rules whenever they wish to enter into an RPT As a contribution to the debate about the convergence between EU corporate law and that of major eastern European states the book has no peers Practitioners in both East and West who advise on compliance with regulations for RPTs or represent stakeholders interests
