Politics Meets Markets Tao Huang,Weiping He,2024-12-17 The book highlights several aspects with Chinese characteristics that set the country s financial system apart One key element is the significant influence of the Communist Party of China CPC on the financial markets The Party plays a crucial role in shaping and driving policies within the financial sector reflecting a distinct interplay between politics and finance Additionally the book emphasizes the involvement of various authorities within the government the court system and the intricate relationship between the courts and the governments in influencing the dynamics of the financial markets These

factors collectively contribute to a distinctive environment that cannot be fully understood through conventional theoretical frameworks. The major analytical points of the book revolve around the intricate triangular relationships among China's politics, financial market rules and the financial markets themselves. The authors argue that relying solely on any existing school of thoughts is insufficient for comprehending the complexities of China's financial landscape. Instead, the book explores the multifaceted connections between politics, courts and the financial markets. It delves into how political forces drive the formulation, development and enforcement of financial market rules, including the roles played by various government bodies and the legal system. Unlike a focus on regulations and rules merely on paper, the book takes a grounded approach by investigating China's financial markets rules in practical terms. By doing so, it seeks to discover the underlying logic behind the unique features of China's financial system, providing a nuanced understanding of the interactions between political forces, legal frameworks and the financial markets in the Chinese context.

The Shadow Banking System Valerio Lemma, 2016-04-08 The book shows the fundamentals of the shadow banking system and its entities, operations and risks. Focusing on the regulatory aspects, it provides an original view that is able to demonstrate that the lack of supervision is a market failure.

Them and Us Philippe Legrain, 2020-10-15 Winner of the Diversity Inclusion and Equality Award at the Business Book Awards 2021. Underpinned by scholarship, Legrain's book fizzles with practical ideas. *The Economist*: The beauty of diversity is that innovation often comes about by serendipity. As Scott Page observed one day in 1904 at the World Fair in St. Louis, the ice cream vendor ran out of cups. Ernest Hami, a Syrian waffle vendor in the booth next door, rolled up some waffles to make cones, and the rest is history. Filled with data, anecdotes and optimism, *Them and Us* is an endorsement of cultural differences at a time of acute national introspection. By every measure, from productivity to new perspectives, immigrants bring something beneficial to society. If patriotism means wanting the best for your country, we should be welcoming immigrants with open arms.

Capitalism, Global Change and Sustainable Development Luigi Paganetto, 2020-06-26 This book analyzes new forms of capitalism that are manifesting under the pressures of global transformation. By studying economic and environmental indicators in various parts of the world, it seeks to reconcile economic growth with environmental and social sustainability, which is an important issue in both developed and emerging economies. These indicators include the explosive development of digital technologies and new global value chains, which are reshaping economies and societies all over the world. The contributing authors also address the challenge of immigration, the sustainable development transformation, the ties between productivity and social rights, automation and global value chains, the energy transition and innovation and sustainable growth.

HC 728-II - Project Verde: Volume II Great Britain. Parliament. House of Commons. Treasury Committee, 2014 One of the most significant consequences of Co-op Bank's near-collapse from a public policy perspective was the collapse of Lloyds Banking Group's planned divestment under Project Verde. Co-op Bank's withdrawal forced Lloyds to

resort to its fallback option of an Initial Public Offering The result is a new bank TSB which not having an existing banking presence of its own consists solely of the business divested by Lloyds Accordingly it has a personal current account market share not of 7 per cent but of 4.2 per cent There is a risk that a bank of this size might struggle to grow significantly and to act as a true challenger in the market Had Co op Bank's resulting capital shortfall been uncovered earlier it is likely that the bank would not have progressed so far with Verde As it was the rapid and late emergence of the capital problem led to Co op's withdrawal from the Verde process at a relatively late stage The Committee recommends that the FRC investigation and the independent inquiry into the events at Co op Bank consider the role of KPMG and the FSA in relation to the late emergence of loan impairment and IT losses On the basis of these findings the independent inquiry into the events at Co op Bank should also form a view on whether Co op's Verde bid could or should have been halted sooner While it may not have been fully transparent from the start that Co op Bank's bid was doomed to failure it was beset by problems from an early stage But it was not these problems that killed the deal it was the capital shortfall that emerged only late in the day It is important from every angle to determine why the capital shortfall was not uncovered earlier
