Cabrol, Edmond A. Grin, 2018-06-29 From Habitability to Life on Mars explores the current state of knowledge and questions on the past habitability of Mars and the role that rapid environmental changes may have played in the ability of prebiotic chemistry to transition to life It investigates the role that such changes may have played in the preservation of biosignatures in the geological record and what this means for exploration strategies Throughout the book the authors show how the investigation of terrestrial analogs to early Martian habitats under various climates and environmental extremes provide critical clues to understand where what and how to search for biosignatures on Mars The authors present an introduction to the newest developments and state of the art remote and in situ detection strategies and technologies that are being currently developed to support the upcoming ExoMars and Mars 2020 missions They show how

the current orbital and ground exploration is guiding the selection for future landing sites Finally the book concludes by discussing the critical question of the implications and ethics of finding life on Mars Edited by the lead on a NASA project that searches for habitability and life on Mars leading to the Mars 2020 mission Presents the evidence questions and answers we have today including a summary of the current state of knowledge in advance of the ESA ExoMars and NASA Mars 2020 missions Includes contributions from authors directly involved in past current and upcoming Mars missions Provides key information as to how Mars rovers such as ExoMars and Mars 2020 will address the search for life on Mars with their instrumentation

Speaking Truth to Power Ginsberg, Benjamin, Paschall, Collin, 2022-09-06 Truth and power have a difficult relationship Decision makers are often required to make judgements that depend upon specialized knowledge and thus reluctantly surrender power They are apt to reject advice inconsistent with their perceived interests experiences and cognitive capacities Speaking Truth to Power aims to guide the reader through the tangled relationship between truth and power manifesting as the interplay between experts and decision makers in society

Here Be Dragons Olle Häggström, 2016-01-21 There is a widely held conception that progress in science and technology is our salvation and the more of it the better This however is an oversimplified and even dangerous attitude While the future will certainly offer huge changes due to such progress it is far from certain that all of these changes will be for the better The unprecedented rate of technological development that the 20th century witnessed has made our lives today vastly different from those in 1900 No slowdown is in sight and the 21st century will most likely see even more revolutionary changes than the 20th due to advances in science technology and medicine Particular areas where extraordinary and perhaps disruptive advances can be expected include biotechnology nanotechnology and machine intelligence We may also look forward various ways to enhance human cognitive and other abilities using e g pharmaceuticals genetic engineering or machine brain interfaces perhaps to the extent of changing human nature beyond what we currently think of as human and into a posthuman era The potential benefits of all these technologies are enormous but so are the risks including the possibility of human extinction This book is a passionate plea for doing our best to map the territories ahead of us and for acting with foresight so as to maximize our chances of reaping the benefits of the new technologies while avoiding the dangers

Nuclear Command and Control Norms Salma Shaheen, 2018-09-28 This book offers a new analytical framework for studying nuclear command and control C2 based on a comparative study of four nuclear weapons states NWS The subject of nuclear operations management has long been shrouded in secrecy and whilst the importance of nuclear C2 cannot be disputed there are few academic studies into how and why states develop these systems This volume includes a comparative study of the development of nuclear C2 by four different NWS Britain China India and Pakistan and demonstrates that despite several differences there is a central set of factors that remain constant The analytical framework used in this study identifies key factors that can potentially shape the evolution and stability of nuclear C2 These factors include geostrategic threat environment international norms leadership

and control of nuclear operations civil military control The book also analyses the interaction among different stakeholders within the nuclear C2 enterprise It recognises that politicians the military and scientists all have key but different roles to play and the way these stakeholders have learned to co exist with each other is explored This volume offers a set of dynamics that could form a global norm for nuclear C2 serving as a standard for new entrants into the nuclear club This book will be of much interest to students of nuclear proliferation global governance and International Relations in general **Biomedical Visualisation** Leonard Shapiro,Paul M. Rea,2022-09-15 This image rich book explores the practice as well as the theory of visual representation and presents us with the importance of designing appropriate images for communication to specific target audiences This includes the appropriate choice of high tech digital or low tech analogue technologies in image making for communication within the medical education biological research and community health contexts We hear from medical students about the value of using clay modelling in their understanding of anatomy from educators and curriculum designers about visual affordances in medical education and from a community driven project in South Africa about their innovative use of locally designed images and culture specific narratives for communicating important health information to marginalised communities A chapter explores the evolution of scientific visualisation and representation of big data to a variety of audiences and another presents the innovative 3D construction of internal cellular structures from microscopic 2D slices As we embrace blended learning in anatomy education a timely chapter prompts us to think further about and contribute to the ongoing discourse around important ethical considerations in the use and sharing of digital images of body donors This book will appeal to educators medical illustrators curriculum designers post graduate students community health practitioners and biomedical researchers **Wildland Fire Smoke in the United States** David L. Peterson,Sarah M. McCaffrey,Toral Patel-Weynand,2022-08-11 This open access book synthesizes current information on wildland fire smoke in the United States providing a scientific foundation for addressing the production of smoke from wildland fires This will be increasingly critical as smoke exposure and degraded air quality are expected to increase in extent and severity in a warmer climate Accurate smoke information is a foundation for helping individuals and communities to effectively mitigate potential smoke impacts from wildfires and prescribed fires The book documents our current understanding of smoke science for 1 primary physical chemical and biological issues related to wildfire and prescribed fire 2 key social issues including human health and economic impacts and 3 current and anticipated management and regulatory issues Each chapter provides a summary of priorities for future research that provide a roadmap for developing scientific information that can improve smoke and fire management over the next decade **Community and Public Health Nutrition** Sari Edelstein,2022-03-22 Updated with the latest data in the field Community and Public Health Nutrition Fifth Edition explores the complex multifaceted array of programs and services that exist in the United States today that are dedicated to bettering population and community health through improved nutrition The Fifth Edition explores the subject by first considering how nutrition fits into public health
