Donald C Menzel, Harvey E White

Kaplan Center For Public Service:

Public Services Delivery World Bank,2005 This publication sets out a framework for analysing the performance of governments in developing countries looking at the government as a whole and at local and municipal levels and focusing on individual sectors that form the core of essential government services such as health education welfare waste disposal and infrastructure It draws lessons from performance measurement systems in a range of industrial countries to identify good practice around the world in improving public sector governance combating corruption and making services work for poor people

Measuring the Performance of Public Services Michael Pidd,2012-02-02 Measuring the performance of public agencies and programmes is essential to ensure that citizens enjoy quality services and that governments can be sure that taxpayers receive value for money As such good performance measurement is a crucial component of improvement and planning monitoring and control comparison and benchmarking and also ensures democratic accountability This book shows how the principles uses and practice of performance measurement for public services differ from those in for profit organisations being based on the need to add public value rather than profit It describes methods and approaches for measuring performance through time for constructing and using scorecards composite indicators the use of league tables and rankings and argues that data envelopment analysis is a useful tool when thinking about performance This demonstrates the importance of allowing for the multidimensional nature of performance as well as the need to base measurement on a sound technical footing

Improving Public Services Douglas J. Besharov,Karen J. Baehler,Jacob Alex Klerman,2017 This volume spotlights recent advances in the worldwide use of quantitative performance measures in the public sector especially approaches that incorporate program evaluation techniques Chapters include single country case studies multi country comparisons and thoughtful essays on the challenges of making performance measurement and management work in diverse settings

The State of Public Administration Donald C Menzel,Harvey E White,2015-01-28 The trends and practices of public administration are ever changing and it is essential that they be appraised from time to time Designed as a capstone survey of the field The State of Public Administration focuses on leading edge issues challenges and opportunities that confront PA study and practice in the 21st Century

Connecting Knowledge and Performance in Public Services

Kieran Walshe,Gill Harvey,Pauline Jas,2010-09-30 The performance of public services is now more closely scrutinised than ever before Every teacher doctor social worker or probation officer knows that behind them stands a restless army of overseers equipped with a panoply of league tables star ratings user opinion surveys performance indicators and the like with which to judge them This increased scrutiny and performance measurement has undoubtedly produced improved public services Yet we still have a limited understanding about how this information can be best used to bring about improvements in performance What goes on inside the black box of public organisations to move from information to action or from

knowing to doing This book tackles this important question by reviewing a wide range of performance mechanisms It explores how information about performance can be translated into improvements in services and conversely why this does not always happen in practice *Relapse Prevention and Recovery Promotion in Behavioral Health Services* , FYL ,1989
