New York Through the Lens Vivienne Gucwa, 2017-03-09 Street photographers will never tire of New York as a subject. It is the perfect setting for the genre: the world's most evocative cityscape against which candid memorable moments play themselves out every day. Nearly a decade ago Vivienne Gucwa began walking the streets of the city with the only camera she could afford: a sub 100 point and shoot and started taking pictures. Choosing a direction and going as far as her feet would take her, she noticed lines, forms and structures that had previously gone unnoticed but which resonated, embodying a sense of home. Having limited equipment forced her to learn about light composition and colour and her burgeoning talent won her a blog, millions of readers and wide recognition in the photographic community. *New York Through the Lens* showcases the stunning results of her ongoing quest. Filled with spectacular photographs and illuminated by Vivienne's own insightful commentary, *NY Through the Lens* acts as a beautiful travel guide to the city; it will be a must read for her many fans and for any lover of street photography.
