Many are now exploring and creating alternatives. In a compelling narrative that introduces historical and contemporary research on self directed education *Unschooler* also spotlights how a diverse group of individuals and organizations are evolving an old schooling model of education. These innovators challenge the myth that children need to be taught in order to learn. They are parents who saw firsthand how schooling can dull children's natural curiosity and exuberance and others who decided early on to enable their children to learn without school. Educators who left public school classrooms discuss launching self directed learning centers to allow young people's innate learning instincts to flourish and entrepreneurs explore their disillusionment with the teach and test approach of traditional schooling **Annual Report of the Regional and Resident Geologists** ,1979 Annual Report of the Regional and Resident Geologists 1979 Ontario.
