Introducing our MERN based food ordering website, a seamless platform that redefines the dining experience. With a robust set of features including a user friendly cart system, secure online payment options, convenient Cash on Delivery and an intuitive admin panel, our website ensures a delightful and efficient journey for both customers and administrators. Embrace the future of food ordering with our technologically advanced and user centric platform. Choosing to create a food ordering website using the MERN stack is like a hands on journey into tech and real world applications. Picking the digital dining area means aiming for a simple and effective solution in today's online world. It's about getting the hang of MongoDB, Express.js, React and Node.js in a practical way. This project is all about combining tech exploration with making things easy for users, diving into the nitty gritty of crafting a smooth and responsive app. In a nutshell, it's a down to earth exploration of web development using the MERN stack to cook up a practical and user friendly digital dining experience. Design of Wind and Earthquake Resistant Reinforced Concrete Buildings

Somnath Ghosh, Arundeb Gupta, 2021-06-14. Design of Wind and Earthquake Resistant Reinforced Concrete Buildings explains wind and seismic design issues of RCC buildings in brief and provides design examples based on recommendations of latest IS codes essential for industrial design. Intricate issues of RCC design are discussed which are supplemented by real life examples. Guidelines are presented for evaluating the acceptability of wind induced motions of tall buildings. Design methodologies for structures to deform well beyond their elastic limits which is essential under seismic excitation have been discussed in detail. Comparative discussion including typical design examples using recent British, Euro and American codes is also included. Features: Explains wind and earthquake resistant design issues

balancing theoretical aspects and design implications in detail Discusses issues for designing the wind and earthquake resistant RCC structures Provides comprehensive understanding analysis design and detailing of the structures Includes a detailed discussion on IS code related to wind and earthquake resistant design and its comparison with Euro British and American codes Contains architectural drawings and structural drawings The book is aimed at researchers professionals graduate students in wind and earthquake engineering design of RCC structures modelling and analysis of structures civil infrastructure engineering
