Transfer Pathways is the first book of its kind to provide a detailed on the ground examination of the difficult paths curricular  
interpersonal and institutional that students must chart through community college The book follows 1 670 two year college  
students over four years as they begin STEM programs in the Midwest and documents their educational and life experiences  
as they moved toward or away from the prospect of transfer to a four year institution Their stories reveal that they were on  
their own left to navigate the pathways to transfer without meaningful institutional support The students pursued one of four  
pathways or momentum trajectories linear upward detoured deferred or taking a break The preexisting and lasting  
disparities in their access to education and financial resources their experiences with teaching and advising and the  
conundrum between support from and for family among others propelled them onto different trajectories in their quest for  
transfer As this book makes painfully clear the current state of transfer acts as a mechanism that perpetuates and worsens  
inequities in educational outcomes As Xueli Wang argues to cultivate an equitable STEM transfer pathway culturally relevant  
and responsive supports that are accessible welcoming and validating must be put in place at the institutional level and  
appeal to the talent motivation and unique needs of historically marginalized students In doing so postsecondary institutions
