Daily Graphic Ransford Tetteh, 2014-04-24 **Assessing Academic Literacy in a Multilingual Society** Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience **Mathews' matriculation mathematics: being all the papers in arithmetic and algebra, set from 1844 to 1878. With answers [&c.] by E.H. Mathews** London univ, exam. papers, 1878 **Unforgettable W.** Michael Gray, 2016-10-12 We have an uneasy relationship with the relentless deluge of information gushing out of academia and our media outlets To turn it off is escapist but to attempt to cognitively grapple with it is overwhelming In **Unforgettable** Enabling Deep and Durable Learning a nationally recognized master teacher gives professors and their students the means to chart a clear path through this information explosion Humans crave explanatory patterns and this book enables teachers to think deeply about their academic disciplines to find and articulate their core explanatory principles and to engage their students in a compelling way of thinking An alternative title for this book could be **Why the Best College Teachers Do What They Do** because the author articulates a compelling rationale that will equip faculty to create and deliver transformative courses Students in transformative courses grapple with essential questions and gain mental muscle that equips them for real world challenges Globalization Development and Social Justice Ann El Khoury, 2015-03-27 Are there existing alternatives to corporate globalization What are the prospects for and commonalities between communities and movements such as Occupy the World Social Forum and alternative economies Globalization Development and Social Justice advances the proposition that another globalization is not only possible but already exists It demonstrates that there are multiple pathways towards development with social justice and argues that enabling propositional agency rather than oppositional agency such as resistance is a more effective alternative to neoliberal globalization El Khoury develops a theory of infraglobalization that emphasizes creative constitution not just contestation of global and local processes The book features case studies and examples of diverse economic practice and innovative emergent political forms from the Global South and North These case studies are located in the informal social economy and community development as well as everyday practices from prefigurative politics to community cooperatives and participatory planning This book makes an important

John Dalton Elizabeth Musgrave, 2023-08-10 This book addresses the work of architect John Dalton 1927 2007 an important voice in mid century modernism in Australia whose work despite his being exhibited and published internationally and also winning several awards for his designs is woefully little known Published as part of the Bloomsbury Studies in Modern Architecture series which brings to light the work of significant yet overlooked modernist architects the book draws on previously unpublished archival documents including Dalton s drawings and paintings transcripts of lectures letters and articles plans and photographic images of built works to characterize the architect not only as a very talented designer but also as a pioneer of environmentalist thinking in Australia The book reveals how Dalton s architectural preoccupations parallel a transition in mid century modern architecture globally from functional efficiency and material rationalism to a concern with being in dialogue with the environment confirming a wider environmental turn that involved the integration of environmental with cultural considerations through relational thinking and which preceded and transcends the discipline s fascination with theoretical paradigms such as Critical Regionalism John Dalton Subtropical Modernism and the Turn to Environment in Australian Architecture is thus not only an important contribution to the existing scholarship on 20th century modernism but also to the current renewed interest in environmental design across the globe

Balogun, 2023-09-20 This book assesses the challenges within the Nigerian educational system and provides a concrete plan to revitalize the low performing system by strengthening high stakes testing at all levels In Nigeria many citizens believe that the solution to the country's low performance in education is to eliminate high stakes standardized testing High stakes testing refers to applying standardized student achievement tests as a primary mechanism to evaluate students teachers and their school's performance This book argues that the poor quality of education and low ranking of Nigeria's educational system is not related to the negative consequences of high stakes testing but rather is due to many intrinsic factors By conducting a comparative analysis of six high performing education systems worldwide the book offers a comparative summative evaluation of the educational system and offers recommendations This book will be of interest to policymakers and scholars in the fields of African education higher education quality and global studies African studies management and administration leadership and professional development studies Joseph Abiodun Balogun is former Dean and retired
