Reflecting on Teaching Practice and Learner Engagement Anjoom A. Mukadam , 2020-05-04 Student Empowerment in Higher Education brings together the accumulated knowledge and experience of many accomplished teachers and students from higher education institutions around the world and has much to offer those who are engaged in higher education as students teachers or support staff The authors offer personal reflections in teaching learning mentoring assessment hands on activities course design and student identities in higher education across the globe supported by academic research and scholarship Readers are provided with a window into tried and tested empowering practices in varying contexts enabling them to see what works and what does not alongside the challenges and possibilities A distinctive feature of this book and its paramount strength is that it explores best practices in student empowerment whilst reflecting on matters of teaching and learning that are familiar to students and teachers alike and also explores practices in a variety of disciplines The intention of these volumes therefore is not only to inform readers about the diverse learning and teaching approaches of the authors but most importantly to facilitate processes of student empowerment and promote reflection on teaching and learning practices In recent decades higher education policy discourse has persistently implied that a university education is delivered to students under the impersonal banner of the student experience Not only does this commodify the diverse individual experiences of students into one marketable product it also creates false barriers and power dynamics between students and their teachers In Student Empowerment in Higher Education the students and lecturers who collaborated to write this important volume have literally

blown such misleading notions out of the window I highly recommend each varied and autonomous chapter to learn what really inspires confidence and success in university students Professor Sarah Hayes Professor of Higher Education Policy University of Wolverhampton The two volumes of Student Empowerment in Higher Education offer the reader rich and varied examples and understandings of student empowerment from around the world The authors provide reflective accounts of learning and teaching from diverse perspectives and disciplines which focus on many different areas of practice in higher education It is this variety that will appeal to many readers as the source of ideas and inspiration for numerous possible routes to empowerment With many chapters co authored by students and staff the book models the collective responsibility students and staff have for enhancing student empowerment Dr Catherine Bovill Senior Lecturer in Student Engagement University of Edinburgh Fulbright Scholar Elon University North Carolina USA Visiting Fellow Knowledge Exchange University of Winchester

Inclusive Leadership Gloria Moss, 2019-04-10. This book breaks important new ground in describing the enhancements in performance, motivation, and mental well-being that Inclusive Leadership brings to organisations. Illustrating these benefits through theory and practical examples, the book also contrasts this style with Command and Control or Transactional leadership, a style that still holds sway in many organisations with leaders focused on mistakes rather than progress. Inclusive Leadership will transport you through time and geography from the UK, US, and Australia to France and Norway, showing how much more nurturing an environment Inclusive Leadership provides than Transactional leadership. Read how Inclusive Leadership complements a competitive strategy emphasising innovation and how it dominates in four organisations: Royal Mail, Sales the PageGroup, Sevenoaks School, and APAM, spanning sales, recruitment, education, and real estate. The chapters also cover education and the associations between Inclusive Leadership and enhanced undergraduate student performance, motivation, and engagement both in Norway and in the UK. With a unique combination of both theoretical and practical perspectives, this book is a useful tool for practitioners in the corporate world, business management, and leadership students, and both emerging and established leaders. Conference FOHE BPRC 3 which was held on 27-29 November 2017. It acknowledges the importance of a continued dialogue between researchers and decision makers and benefits from the experience already acquired this way enabling the higher education community to bring its input into the 2018-2020 European Higher Education Area (EHEA) priorities. The Future of Higher Education Bologna Process Researchers Conference (FOHE BPRC) has already established itself as a landmark in the European higher education environment. The two previous editions (17-19 October 2011, 24-26 November 2014) with approximately 200 European and international participants each covering more than 50 countries each were organized prior to the Ministerial Conferences thus encouraging a consistent dialogue between researchers and policy makers. The main conclusions of the FOHE Conferences were presented at the EHEA Ministerial Conferences 2012 and 2015 in order to make the voice of researchers better heard by European policy and decision makers. This volume is dedicated to continuing the collection of evidence and research based policymaking and further narrowing the gap between policy and research within the EHEA and broader global contexts. It aims to identify the research areas that require more attention prior to the anniversary 2020 EHEA Ministerial Conference with an emphasis on the new issues on rise in the academic and educational community. This book gives a platform for discussion on key issues between researchers, various direct higher education actors, decision makers and the wider public.
