(a) The symbol equation for the reaction can be represented as shown in Fig. 3.1.

Table 3.1 shows some bond energies.

Table 3.1

bond	H-H	N-H
bond energy in kJ/mol	435	435

Use the bond energies in Table 3.1 and  $\Delta H$  to calculate the bond energy of an N-H bond in kJ/mol.

Use the following steps.

- Calculate the energy needed to break bonds in the reactants.  
 $(4 \times 435) + 1(435)$   
 $435 + 1(435)$ 

3150 kJ
- Calculate the energy released when bonds form in the products.  
 $\text{bond broken} - \text{bond formed} = -92$   
 $3150 - x = -92$   
 $x = 3150 + 92$ 

3242 kJ
- Calculate the energy of an N-H bond.  
 $6 \times \text{N-H} = 3242$   
 $\text{N-H} = \frac{3242}{6}$ 

540 kJ/mol

Through a series of rich photographs Art of Captivity Arte del Cautiverio tells a compelling story about the war on drugs in Central America Entirely bilingual in both English and Spanish the book focuses on the country of Guatemala now the principle point of transit for the cocaine that is produced in the Andes and bound for the United States and Canada Alongside a spike in the use of crack cocaine Guatemala City has witnessed the proliferation of Pentecostal drug rehabilitation centers The centers are sites of abuse and torment but also lifesaving institutions in a country that does not provide any other viable social service to those struggling with drug dependency Art of Captivity Arte del Cautiverio explores these centers as

architectural forms while also showcasing the cultural production that takes place inside them including drawings and letters created by those held captive This stunning work of visual ethnography humanizes those held inside these centers breaks down stereotypes about drug use and sets the conditions for a hemispheric conversation about prohibitionist practices by revealing intimate portraits of a population held hostage by a war on drugs Abortion across Borders Christabelle Sethna, Gayle Davis, 2019-03-26 A timely examination of how restrictive policies force women to travel both within and across national borders to access abortion services Safe legal and affordable abortion is widely recognized as an essential medical service for women across the world When access to that service is denied or restricted women are compelled to carry unwanted pregnancies to term seek backstreet abortionists attempt self induced abortions or even travel to less restrictive states provinces and countries to receive care Abortion across Borders focuses on travel across domestic and international boundaries to terminate a pregnancy Christabelle Sethna and Gayle Davis have gathered a cadre of authors to examine how restrictive policies force women to move both within and across national borders in order to reach abortion providers often at great expense over long distances and with significant safety risks Taking historical and contemporary perspectives contributors examine the situation in regions that include Texas Prince Edward Island Ireland Australia the United Kingdom and Eastern Europe Throughout they take a feminist intersectional approach to transnational travel and access to abortion services that is sensitive to inequalities of gender race and class in reproductive health care This multidisciplinary volume raises challenging logistical legal and ethical questions while exploring the gendered aspects of medical tourism A noticeable rollback of reproductive rights and renewed attention to border security in many parts of the world will make Abortion across Borders of timely interest to scholars of gender and women s studies health medicine law mobility studies and reproductive justice Contributors Barbara Baird Niklas Barke Anna Bogic Hayley Brown Lori A Brown Cathrine Chambers Ewelina Ciaputa Gayle Davis Mary Gilmartin Agata Ignaciuk Sin ad Kennedy Lena Lennerhed Jo Ann MacDonald Colleen MacQuarrie Jane O Neill Clare Parker Christabelle Sethna Sally Sheldon **Cornell** Glenn C.
