*mohamedharmoush object detection and recognition using matlab* - Aug 04 2022

web the goal of this project is to build an object recognition system that can detect objects from an input image and identifying the detected objects on the image by drawing a rectangle around each object on the image and classify it to be one from a 5 objects cat laptop apple helicopter and car

getting started with object detection using deep learning matlab - Dec 28 2021

web use an object detector in the computer vision toolbox to load the pretrained model and detect objects in a test image the table lists the names of the pretrained models names of the corresponding support packages and the object detectors in computer vision toolbox
