Cold War perspective falls short in unfolding the complex geographies of connections and the multipolarity of actions and
transactions that were shaped through the movement of individuals and ideas from Africa to the East and from the East to
Africa in the decades in which African countries moved to independence Adopting an interdisciplinary transregional
perspective this volume casts new light on aspects of the role of Eastern Europe and the Soviet Union in the decolonisation of
Africa Taking further themes explored in a collection of essays published by the editors in 2019 the twelve case studies by
authors from South Africa Czech Republic Portugal Russia Hungary Italy Canada Serbia and Germany draw on new sources
to explore the history of the ties that existed between African liberation movements and the socialist bloc some of which
continue to influence relationships today Chapters contribute to three relevant main themes that resonate in a number of
scholarly fields of inquiry ranging from Global Studies Transregional Studies Cold War Studies Global History to African
Studies Eastern European Russian and Slavic Studies Reconsiderations Resources and Reverberations Drawing upon newly
opened archives and combining transregional perspectives with sources in different languages chapters explicitly point out
the shortcomings of past research and debates in the respective field They highlight new avenues which have been
developing and which need to be further developed Reconsiderations Selected case studies address the resources of those
being active and involved in decolonisation processes be it in East North West and South They reveal Which resources both
material and intellectual are the actors drawing upon On the other hand From which resources are individuals on one side or
the other reciprocally or intermittently intentionally kept away Resources Finally the third theme puts an emphasis on the
historicity of the processes depicted Studies point to the gaps and dead ends of international support the paths that peter out
but also to repercussions and reverberations up until today Reverberations Taken these three themes together the individual
chapters contribute to the overall question of Which general historical narratives about the second half of the 20th century
