Mergent Industrial Manual ,2003 Moody's Transportation Manual ,1995 The Collaborative Fight Paul R. Birch,Lina M. Svedin,2024-02-09 The beautiful picture of brothers in arms vanquishing a tyrant The power of a well orchestrated army and navy winning historic battles Overwhelming military might and ability through teamwork This is how the US military services portray themselves to the public and to their own service members through official doctrine However under the veneer of jointness deeply fraught processes are at play Frequently the services think more about protecting organizational turf than about national security and maintaining an advantage against the United States external adversaries Uniting US military services is a difficult endeavor that becomes even more so the farther from a battlefield and the higher up the command structure the unifying needs to happen In The Collaborative Fight Paul R Birch and Lina M Svedin examine cases of institutional jointness among US military services from the late nineteenth century into the twenty first century They draw actionable conclusions for practitioners in the defense establishment while giving examples of successful joint cooperation that overcame the difficulties inherent in pursuing it Even the successful cases that Birch and Svedin discuss show that the US military services face bureaucratic incentives and organizational leadership issues that make battlefield cooperation less than ideal Birch and Svedin adeptly translate theory and history into approaches useful to practitioners in the field while examining the theoretical framework outlining the drivers in joint military cooperation
