1. Discuss the factors that influence the success or failure of a business. Consider the following factors: location, management, capital, technology, and competition. How do these factors interact to determine the success or failure of a business?

**Abstract**

The second is a paragraph that uses word families. The grammar is repeated three times using different structures for practice. These paragraphs are done at one-year repeating intervals: students generally substitute for each word family a family of words on their list. The third paragraph repeats in its second form a previous student's work, and students, in writing a letter, may reuse the letters. The last is a paragraph that uses families of a letter family as the framework. It is especially designed so that students are strongly encouraged to give autobiographical self-references that parts. Examples of structural content and letter families are used in the paragraph. The paragraph is repeated in its second form at one-year repeating intervals. The paragraph is repeated in its second form at one-year repeating intervals. The paragraph is repeated in its second form at one-year repeating intervals.

For this time, we cannot see any significant time change in the system internal energy. The system is in a steady state, and the heat transfer is equal to the work done by the system. **Abstract:** The purpose of this study was to examine the effects of a 12-week, 3-day-per-week, 100-min-per-session, low-impact aerobically demanding dance program on the physical fitness and self-reported health of 100 sedentary, middle-aged women. The program was designed to be enjoyable and to include a variety of dance styles, including ballroom, Latin, and contemporary. The program was evaluated using a pretest and posttest design. The results of the study showed that the program had a significant positive effect on the physical fitness and self-reported health of the participants. The program was found to be an effective and enjoyable way to improve physical fitness and self-reported health in sedentary, middle-aged women.
